## Garden Club

### Plans Pilgrimage

Several homes in Hancock County will be open to the public March 14 as the Mississippi Gulf Coast Council of Garden Clubs again sponsors its Annual Spring Pilgrimage. The Bay-Waveland Garden Club has scheduled the following schedule for those interested in attending the pilgrimage: 9 a.m.- Christ Episcopal Church, 912 Beach Blvd., Bay St. Louis. 10 a.m.- Poindexter home, 974 S. Beach Blvd., Bay St. Louis. 10:45 a.m.- Rowley home, 715 N. Beach Blvd., Waveland. 11:30 a.m.- Charping home, Ballview Ave., Waveland. 12:30 p.m.- Luncheon, Diamondhead Country Club (Reservations are still open and may be made by calling 467-7777). 1:30-2 p.m.- Gex home, Alewa Place, Diamondhead.

## Stieffel Wins Flying Scot

Woody Stieffel of Bay-Waveland Yacht Club, became new champion of the 1973 Flying Scot Mid-Winter Championship Regatta held at St. Andrew's Bay Yacht Club, Panama City, Florida, February 23, 24, and 25. Woody and his crew, Chris and Cindy Stieffel, won the first of the elimination races Friday and finishing sixth in the second race.

Marc Eagan, Bay-Waveland Yacht Club, and his crew Bubby Eagan and Buzzy Heausler posed the greatest threat to Stieffel's position throughout the regatta. Eagan also got off to a flying start by placing fifth and first in his two elimination races.

Fifty-three Flying Scot's participated in this national competition. The first two races on Friday separated the large fleet into Championship and Challenger Divisions. Only the scores of the final three races on Saturday and Sunday counted toward winning the Regatta.

Stieffel showed superior sailing ability as he passed boats downwind and on the beat, to win Saturday's first race. Eagan displayed his skills in the second race Saturday coming from behind to win by a large margin over Stieffel in second place. Going into the final race Sunday morning Stieffel led Eagan by two points and Tommy Meric of Southern Yacht Club by 2 1/2 points.

In the final race Sunday Stieffel finished fourth ahead of both Eagan and Meric to insure his victory as Mid-Winter Champion. Eagan finished sixth in the last race earning second place over-all; Fred Meno of Ohio won the final race and finished third in the regatta. Meric was fourth and George Haney, Pensacola Yacht Club, fifth.

MARCH IS CLEANUP MONTH in Bay St. Louis and Mrs. Evelyn Farve an employee of Delphi's on S. Beach Blvd. shows how it's done. A broom and a little energy is all that's needed to keep the town clean. Mrs. Farve told the Echo she picks up debris in the morning before the store opens—a nice suggestion for everyone, right? (Echo staff photo by Marileon Maher)

## March Proclaimed Bay Cleanup Month

March has been proclaimed as the Third Annual Clean-Up and Beautification Month for the city of Bay St. Louis by the commission council.

An extensive program of activities is being planned to take place during the month which will be climaxed with an Art Ecology Festival March 30, at the Youth Center on Uman Ave. from 2:30-5 p.m.

The activities, being sponsored by the Bay St. Louis Clean-Up and Beautification Committee begin with an anti-litter presentations in the schools urging young citizens to participate and to enlist the aid of their parents in making this a successful campaign. Talks will be given to students at North Bay Elementary, Bay Junior High and Bay Sr. High.

Art Ecology Contests will be conducted for students in all city schools, public and private. A poster contest will include all elementary school children while the junior high students will design and enter three dimensional projects. The senior high students are being encouraged to design the most unusual, original and "litter-catching" "Fridge" barrels possible. The barrels are being furnished by the city to all homeroom classes in the senior high schools. After the contest, they will be placed along the usual routes of the

grammar school pupils in the hope the children will be aware of their presence and use them.

All citizens of the community are invited to participate in the festival by making and entering original art objects or useful items made from anything which would normally be disposed of as trash. All of these will be displayed at the Art Ecology Festival and ribbon prizes will be awarded the most original and artistic entries. (Rules for the contest may be found on page 5A.)

March 30 will also be the "Third Annual School Clean-Up Day" in Bay St. Louis. All schools, public and private, will release the students from class early in the afternoon, so that they, along with their teachers, may participate in a mass clean-up of the city streets. This annual effort emphasizes the need for civic responsibility by all citizens.

The police department will be issuing on-the-spot premise reports to local businesses throughout the month in the hopes that this friendly reminder will eliminate the need for legal action.

All organizations and citizens are encouraged and urged to plan and carry out projects this month in keeping with the theme of Clean-Up and Beautification.

## CENSUS COUNT CONFIRMED

A confirmed count of the recent census taken by the U.S. Federal Census Bureau shows the population of Pass Christian as of Jan. 15 as 4,525.

This number adds 1,548 to the city's population since the 1970 census count of 2,977.

Pass Christian Mayor J.J. Wittmann attributes the increase to people coming back into the city and rebuilding after Hurricane Camille—not as a matter of growth.

## Council Will Permit Septic Tank Installation

Despite objections by the Hancock County Health Department, West Bay St. Louis area residents will be allowed to obtain permits from the city for construction of buildings utilizing a septic tank disposal system.

The action was taken by the commission council Monday morning after George Heitzmann told the council he was planning to build a house in the West Bay area, using a septic tank system and wanted the council's approval before going ahead on the project.

That area does not have a sewerage disposal system and a septic tank cannot be approved in that location by the health department under state regulations.

According to Wayne Allston of the Hancock County Health Department, who also attended Monday's meeting, potential homeowners cannot obtain loans from the Federal Housing Authority, Farmers' Home Administration or the Veterans Administration on homes with septic tanks.

When questioned by Heitzmann on the possibility of installing sewerage lines in the area, Commissioner of Utilities William Frisbie said that "the cost factor for the city would be impossible within the next five years". Frisbie also explained that the Environmental Protection Agency will not approve the present disposal system (oxidation pond) and without its approval "the city won't get a nickel".

"We are looking at a \$5 million project," Frisbie said, "and the city just can't afford it at the present time."

The motion, made by Mayor Warren Carver and seconded by Commissioner Andre Arceneaux reads "that construction of building in the west bay area be approved provided the square-foot area of the lot on which said building is constructed be sufficient to provide for an unapproved disposal system by the Hancock County Health Department." Frisbie voted against the proposal.

The council also voted to accept the resignation of E.J. Marengo as a member of the Bay St. Louis Planning and Zoning Commission. Marengo offered his resignation at the council's Feb. 19 meeting after city officials refused to replace B.D. "Fip" Johnson as the city's building inspector.

Mayor Warren Carver, in commenting on Marengo's criticism of the council said that "he (Marengo) is certainly not clear and beyond reproach". Carver then referred to the fact that Marengo had been requested several times since July, 1972 to form a panel to study the city's insurance. "Nothing has been done", Carver

pointed out.

Frisbie mentioned that in his opinion, "Marengo could have resigned quietly but I feel he was seeking publicity in the way he handled the situation".

In other Planning and Zoning business, the council also discussed the recent endorsement by the Commission of the proposed council-manager form of government.

"I feel the Commission is using appointive positions to play up their own interest. They're going a little far ahead as far as their duties are concerned but if they want to get into politics, that's their prerogative," Frisbie com-

mented. The council took no action on the proposal.

The council also:

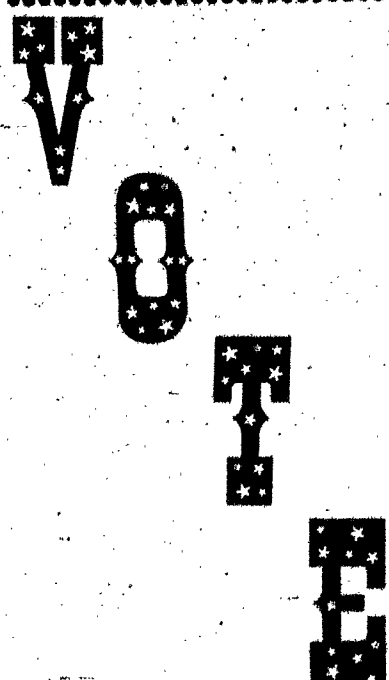

-Voted to grant a change in zoning from a B-2 to M-1 classification to Magnolia State Supply Co., M.A. Phillips Jr., for Lot 508, W. 203.68, and lot 516 First Ward.

-Agreed to purchase an ad in the amount of \$15 for the St. Stanislaus-Mississippi Open Power Lift Meet. Commissioner Frisbie abstained from voting.

-Failed to approve a motion by Mayor Warren Carver to contribute \$50 toward the olympics for the retarded children.

## Board Approves School Additions

Hancock County School Board trustees accepted plans for construction of additional classrooms at Gulfview and Hancock North Central

### Election Saturday!

Hancock County will elect a Circuit Clerk Saturday.

BE SURE TO VOTE!

## Keesler Men Arrested

Two Keesler Air Force Base personnel were charged with possession of marijuana and paraphernalia in a February 22 arrest when Hancock County Sheriff's deputies found the articles in a van belonging to one of the men.

Deputy Fairley Necaise and Special Agent Ronald Peterson discovered the 1966 Dodge Van abandoned beside the roadway on Highway 607 near the asphalt plant. A search of the vehicle revealed four plastic bags containing about three ounces of marijuana, some paraphernalia and a pellet pistol.

The deputies contacted the owner of the van, Kim Tyree Talley, 19, at Keesler Field. At the sheriff's office, Talley said a friend, Daniel E. Henne, also stationed at Keesler, was bringing the van to him from Texas but had left it in Hancock county when the vehicle broke down.

Both men were arrested and charged with possession of marijuana and paraphernalia and released under \$1,500 bond each. A hearing was scheduled for Wednesday night before Justice of the Peace Lee Klein.

In an unrelated case, sheriff's deputies arrested a Waveland man Friday night when he allegedly shot and wounded another man in a barroom fight.

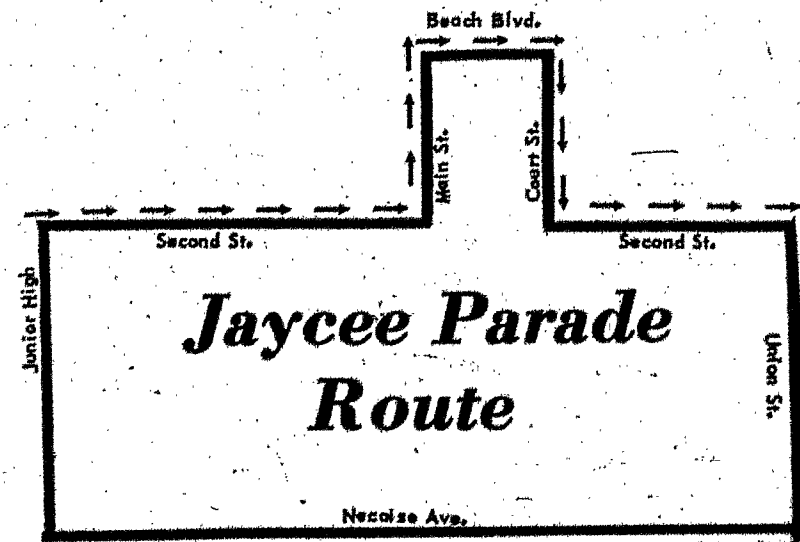

James C. Bourgeois, 29, was apprehended in a Highway 90 trailer court about 45 minutes after he reportedly shot Peter Tartavouille with a 22 pistol, during an altercation in Dot and Floyd's Lounge on Bayou Phillips

Road. Tartavouille was taken to Hancock General Hospital where he was treated for a shotgun wound of the shoulder.

Bourgeois was charged with assault and battery with a deadly weapon with intent to kill and placed under \$25,000 bond. A hearing was set for Wednesday night before Peace Justice Jimmy Ray Hoda.

In other business, two applicants were interviewed by the board for the position of principal of Hancock North Central High School. Resumes and verbal interviews for Albert C. McLand and J.D. Panton were considered by trustees, although neither candidate was accepted for the position. A third name was presented for consideration by Superintendent Kenneth McCarty but was rejected as well.

Trustee Tommy Shaw offered to travel to Jackson to confer with state department of education officials for additional recommendations. After some discussion, a decision was reached for E.E. Braland to contact State Superintendent Garvin Johnson and request that he attend the next board meeting March 6 to consult with members here on the matter. The meeting was adjourned until that date.

The Bay St. Louis Jaycee's Mardi Gras parade will follow this route Saturday beginning at 5:30 p.m. Anyone interested in entering the parade is asked to call Raymond Thomas at 467-7268.

## Bay Voters

Council-Manager Or  
Commission Council?

(Ed. Note: On March 13, the citizens of Bay St. Louis will decide either to adopt the council-manager form of government or to retain the commission council system. In order to clear up any questions concerning duties and responsibilities of both forms, The Sea Coast Echo reprints below important statutes from the Mississippi Code, 1942 Annotated dealing with council-manager and commission council. It is important to remember that this is not the Echo's interpretation of the law, but the laws as set forth by Mississippi legislators.)

COUNCIL-MANAGER  
PLAN  
(VOLUME 3A)3825.5-14 Municipal Council-  
function of mayor.

The mayor and councilmen shall constitute the governing body of such city or town and shall be known as the city council or the town council as the case may be. The mayor shall be the titular head of the city or town for all ceremonial purposes and for all processes of law. He shall be the president of the council and shall have a voice and vote in its proceedings, but no power of veto. He shall have no administrative powers. In case of his absence or disability, the council may appoint another of its members to fulfill his duties temporarily. A majority vote of the council shall decide any question or matter pending before it, except as otherwise hereinafter specifically provided.

## DEATHS

## JAMES L. MAYFIELD

Funeral services are scheduled at 11 a.m. Friday from Riemann's Funeral Chapel for James Lee Mayfield 51, who died early Wednesday at Biloxi V.A. Hospital.

Mr. Mayfield, a retired Delta Airline pilot, is survived by his wife, the former Dorothy Virginia Yancey; four sons, James Lee, Jr., and George Mayfield or Waveland; Gaudier Mayfield, Hattiesburg; and Staff Sergeant Thomas Mayfield, U.S. Marine Corps; also his mother, Mrs. W.B. Mayfield; a sister Mrs. Malcolm Jackson, both of Albany, Miss. and four grandsons. Graveside rites at Waveland Cemetery.

## MRS. LEIDA S. CARVER

Funeral services for Mrs. Leida Schmeck Carver, who died at 4:06 p.m. February 20, were held Friday, February 23, from Riemann-Fahey Funeral Home Chapel with Rev. Charles Johnson, rector, Christ Episcopal Church, officiating.

Interment was in St. Mary's Cemetery. Pallbearers were Richard Fayard, Randolph Carver, Eugene Breazeale, Al Arnold, A. J. Carver and Floyd Hoda.

## MRS. NORMA CAMPBELL

Mrs. Norma G. Campbell 64, a native of New Orleans and resident of Waveland for most of her life, died at 7:17 a.m. Saturday, February 24, at Hancock General Hospital. Mrs. Campbell, born October 12, 1908, was a member of St. Clare Catholic Church. She is survived by a brother, Charles W. Gnella, Metairie, La. A graveside service was held at 10 a.m. Sunday at Waveland Cemetery with Rt. Rev. Magr. John Scanlon, pastor St. Clare Catholic Church, officiating. Riemann-Fahey Funeral Home was in charge of arrangements.

## MORRIS ALCIDE PICHON

Morris Alcide Pichon, died Wednesday, February 21, 1973, at 11 a.m. He was the husband of Louise Riviere; father of Ormel Peter Pichon; brother of Archie and Augusta Pichon, Mrs. Celina Balancer, Mrs. Laura Ziegler, Mrs. Lena Faciane and Mrs. Agnes Datremont and Mrs. Doris Williams of Bay St. Louis; age 63 years; a native of St. Tammany Parish and a former resident of New Orleans and a resident of Chalmette, La., for the past 11 years.

Services from The St. Bernard Funeral Home of Lamana-Panna-Fallo Inc., 7701 St. Bernard, Arabi, La., February 23, 1973 at 2 p.m., followed by religious services at Our Lady of Prompt Succor Catholic Church, Chalmette. Interment in Cypress Grove Cemetery.

3825.5-17 Duties of city or town manager.

The city or town manager shall, subject to law:

(a) Be responsible to the council for the entire administration of the city or town government;

(b) Prepare and recommend to the council an annual budget;

(c) Administer and secure the enforcement of all laws and ordinances of the city;

(d) Appoint and remove all department heads and other employees of the city or town, except that, notwithstanding any other provisions of this act, the council shall appoint the city or town attorney and the auditor, and the council may, in its discretion, appoint the city or town clerk and the treasurer;

(e) Supervise and control all department heads and other employees and their subordinates;

(f) Negotiate contracts and make all purchases for the city or town, subject to the approval of the council;

(g) See that all terms and conditions imposed in favor of the city or town or its inhabitants in any statute or municipal ordinance regarding public utility franchises or other contracts are faithfully kept and performed, and upon knowledge of any violation thereof call the same to the attention of the council;

(h) Make such recommendations to the council as he may deem expedient or necessary;

(i) Make reports or recommendations to the council upon request and at least once a year present a written report of his work and the financial condition of the city or town for the information of the council and of the public;

(j) Perform such other duties as may be required by ordinance or resolution of the city or town council.

3825.5-18 Control of manager and his subordinates by council.

Neither the mayor nor any of the members of the council shall direct or dictate the appointment of any person to or his removal from office by the manager or any of his subordinates. Except for the purposes of inquiring or receiving information or advice, the mayor and council and the several members thereof shall deal with the administrative services solely through the manager and neither the mayor nor any member of the council shall give orders to any subordinate of the city. The city council shall have the power to investigate any part of the city government and for that purpose to compel the attendance of witnesses and the production of documents and other evidence.

3825.5-19 Attendance of officials at council meeting.

The manager and such other officers as the council shall determine shall meet regularly with the city council and have full privileges of discussion but no vote.

3825.5-21 Compensation of mayor and councilmen.

The compensation of mayor and councilmen in cities and towns operating under the council-manager plan, as herein provided, shall be fixed by ordinance but shall not exceed fifty dollars (\$50.00) per month for councilmen and one hundred dollars (\$100.00) per month for the mayor in cities or towns of less than ten thousand (10,000) population, nor one hundred dollars (\$100.00) per month for councilmen and two hundred dollars (\$200.00) per month for the mayor in cities of ten thousand (10,000) or more population; provided, that until hereafter fixed by ordinance, the salaries shall be in an amount equal to one-half (1/2) of the maximum amounts allowed in each classification.

3825.5-23 The city council—its powers and duties.

Except as limited herein, the city council shall have, exercise and perform all executive, legislative and judicial powers, duties and obligations vested by law in the mayor and councilmen acting for the city at the time of the adoption by such city of the council-manager form of government.

3825.5-31 Orders and ordinances—power of city council limited.

Every order, resolution, or ordinance appropriating any sum of money in excess of five hundred dollars (\$500.00) except for the payment of current expenses of the administration and the payment of sums due on any contract previously made, and every order, resolution, or ordinance making or authorizing the making of any contract in excess of five hundred dollars (\$500.00), and every ordinance granting any franchise or any right to use or occupy the streets, highways, bridges or public places in the city for any purpose, or for the issuance of any bonds, or the borrowing of any money at interest, except orders or

ordinances for the immediate and temporary preservation of the public peace, health or safety, shall be introduced in the form in which it is finally adopted by the council, and read by the clerk at a regular meeting of the council, and shall thereafter remain on file with the city clerk for public inspection for at least two (2) weeks before the final passage or adoption thereof; and no such bond issue shall be authorized, or franchise be granted, renewed or extended except by ordinance; and every franchise or grant for interurban or street railways, railroads, automotive bus services, gas works, waterworks, electric light or power plants, heating plants, telegraph or telephone utilities within or operating in such city, and every issue of the bonds of such city or the making or contracting of any interest bearing debt of such city, must be approved after the passage of the ordinance providing for, or granting the same, by a majority of the qualified electors of such city voting thereon at a general or special election.

COMMISSION FORM (VOLUME 3)

3374-48 Cities—how governed.

Every city operating under the commission form of government shall be governed by a council, consisting of the mayor and two councilmen, each of whom shall have the right to vote on all questions coming before the council. The terms of office of the mayor and board of aldermen, or mayor and boards of aldermen and councilmen in every such city, in office at the beginning of the term of office of the mayor and councilmen first elected, under the provisions hereof, shall then immediately cease and terminate; and the terms of office of all other officers then in force in such city, whether elected or appointed, shall cease and terminate as soon as the council shall, by resolution, so declare.

The corporate name of every such city shall be "The city of (name of city)," under which name the council shall exercise and perform all the corporate powers, duties and obligations conferred or

imposed on it or the members thereof. (Supersedes Para. 3374, Code of 1942.)

3374-49 Salary of mayor and councilmen, or commissioners.

At the first regular meeting of the council that is first elected, or as soon thereafter as practicable, the council shall, by ordinance, fix the salary of the mayor and each of the councilmen, or commissioners, which ordinance shall not become operative until the same shall have been approved by a majority of the qualified electors voting at an election to be held for that purpose, as provided by this statute. Said ordinance shall be published in a newspaper published in said city, and having a general circulation therein, for at least ten (10) days before such election, and notice of the date of such election shall be given by the council for ten (10) days by publication in a newspaper published in such city, and having general circulation therein. In case such ordinance shall be rejected by the electors at such election,

## Michael (Mike)

## Ladner

CIRCUIT CLERK

OF

HANCOCK COUNTY

ON MARCH 3rd

Consider His  
Qualifications:

## BACKGROUND:

1. A native of Hancock County, Mike is the son of Mrs. Agnes P. Ladner and the late Mr. Frank E. Ladner of Kiln.
2. Although he is only 40 years of age, he retired from the United States Air Force in 1971.
3. He is a member of Annunciation Church, Kiln, and also a Knight of Columbus.

## EDUCATION:

1. Mike graduated from Kiln High School.
2. During his service career, he completed two years of college in Business Administration. He also has additional hours in Business and Personnel Administration from New Mexico Western State Teachers College.

## EXPERIENCE:

1. During 20 years of service in United States Air Force, his primary job was supervision of personnel and business administration.
2. He is Past First District Commander of Department of Mississippi Veterans of Foreign Wars, who represented six counties.
3. He is a Past All-State Commander of Kiln Memorial VFW Post.
4. He is presently serving as Staff Judge Advocate of Veterans of Foreign Wars for Mississippi, representing over 23,000 veterans.

OTHER  
MEMBERSHIPS:

1. A life member of Kiln Memorial VFW Post 6285.
2. Member of American Legion Post 58, Anderson-Shaw Post, Standard Community.
3. Member of Kiln Volunteer Fire Department.
4. Member of Loyal Order of Moose.
5. Member of Military Order of Cooties.
6. Member of Bay St. Louis Civil Air Patrol.
7. Former Boy Scout Master.

Consider His  
Pledge:

"to conduct the duties of the office of Circuit Clerk in a professional, courteous, efficient manner."

Hancock County is growing constantly and needs public officials who are dedicated to dynamic leadership. Michael Ladner is a young man who pledges to provide his best efforts for effective leadership as Circuit Clerk.

Please Consider  
Your Choice:

As the Campaign closes, I would like to express my profound gratitude for having had the opportunity to meet so many new friends throughout Hancock County. Because of the limited amount of time to Campaign, it was impossible for me to contact each citizen personally. It is my sincere desire to be of service to you and I, therefore humbly solicit your vote and influence.

Vote Michael (Mike) Ladner ☒ March 3rd

Adelaide Shottle

ET TU, BRUTUS CUEVAS-OR,  
I LEFT MY HEART IN  
MACEDONIA!  
PART II

Back in 75 A.D. the great Roman Emperor Vespasian, yielding to the urgings of his favorite agent, Amicus, came to Hancock County in the New World. Vespasian planned to build the Colosseum there, expecting to go down in history as the first in a long line of famous sports entrepreneurs.

The natives were extremely friendly and welcomed the Emperor with open arms. He entertained lavishly aboard the barge, which was moored at the Yacht Club, while Amicus busied himself with land acquisition and other details necessary for construction of the super structure.

As an expression of their good will, a group of partisans named Vespasian king of the upcoming Bacchanalian celebration, an event claiming much interest and active participation every year. The Emperor was delighted and threw himself into the celebration with great enthusiasm. He ordered special robes and laurel wreaths, and dispensed jewels and gold coins with abandon.

At the height of the revelry and on a bad morning after for the Emperor, Amicus appeared before Vespasian with bad news.

As he waited to be recognized, Amicus twisted a corner of his toga dejectedly. The Emperor was in a bad mood and that could mean impending disaster for any number of people.

"I'm having trouble finding a suitable location for the Colosseum, your highness," he began timidly, "and my servants hear in the marketplace that a certain faction is not in favor of the amphitheatre at all. It may take a while for me to..."

"Ye Gods, Amicus," the emperor shouted, hurling a wine goblet at him. "Get this show on the road! It's going to take years to build this thing and if we don't get started they'll discover the New World and the Colosseum won't be ready."

"If you mess up after bringing me all the way over here," Vespasian added ominously, "you may become one of the main events in the arena. I'll see that you get top billing, of course."

With the impetus of such future promises, Amicus moved rapidly and in short shrift, or whatever, he found the perfect spot, right on the water. The owner was amiable, the sale consummated and the triumvirate approached for necessary permits to erect the super structure.

At this point the ambitious project ran into a few snags.

Vespasian had decided to provide quarters for overnight visitors traveling from Picaayuna and Mobilo and this did not sit well with a few of the local settlers. Disgruntled murmurings of "all those transients shouting and stomping around on our beaches" plus the fact that the French empire near Hancock County had already provided many lodging houses for sports fans, led Vespasian to decide against temporary quarters.

However, Vespasian's light bulb was working overtime and he hit on the idea of building permanent housing structures which would include a large recreation area. "How about that, Amicus lad?" the Emperor shouted.

Dragging his toga behind him, Amicus then went before the Planning and Procrastination Commission to win their approval. After much consultation, the Commission wrote a nice letter to Amicus saying "The purpose for which you want to use this property is not clearly stated as far as we are concerned. Our collective thoughts, backed by years of research and consultation has led us to decide that we are not sure about your proposition but feel that we are in favor of the benefits and drawbacks of the entire matter."

Amicus was distraught. "I think I'd better consult the oracle. I brought one along just in case," Amicus whispered to himself.

Explaining that this would be a sort of off-the-cuff prophecy as he didn't have all the facilities necessary for a good reading as he had at Delphi, the oracle killed a couple of calves, meditated a while and came up with a prophecy.

"Forget it," he told Amicus. "Tell the Emperor to go back to Rome. This thing will never get off the ground here."

Vespasian wasn't too upset by the news. His sinuses were giving him fits. The weather was better in Rome, he opined, and "frankly, I don't think this area is ready for the Colosseum," he told Amicus.

The next morning at dawn, the royal barge set sail for Rome. A throng of citizens stood on the dock throwing flowers and waving goodbye, among them, Amicus, who had decided to stay. He had gotten rather attached to the area and the people, he told the Emperor, and besides, he secretly felt there was a great potential in real estate here.

As the band from a local religious school played "Bridge Over Troubled Waters" Amicus was reminded of that old proverb:

You can please all of the people some of the time;  
And some of the people all of the time;  
But it's hard to please Hancock County any time!

# Council-Manager Or Commission Council?

(CONTINUED FROM PAGE 2A)

When a new ordinance, or ordinance, may be passed by the council and submitted to the electors in like manner, until the same shall have been ratified by the electors. When an ordinance so fixing the salaries shall have been finally adopted and approved, the salaries so fixed shall remain in effect until altered or changed in the manner hereinafter provided.

To reduce the salary so fixed it shall be sufficient that the council adopt an ordinance to that effect, which ordinance shall become effective upon adoption without the necessity of publication or of an election. To increase the salary so fixed, an ordinance shall be duly adopted, by the council, which ordinance shall be published for ten (10) days in a newspaper published or having a general circulation in such city, and the ordinance shall not become effective until it shall have been approved by a majority of the qualified electors of such city voting at an election to be held for that purpose after notice of such election shall have been given by the council for ten (10) days publication in such city or having a general circulation therein, the last notice to appear not more than one week next prior to the date of the election; provided, however, that where an election has heretofore been held to increase the salaries of the mayor and the commissioners, or mayor and councilmen as the case may be, and the ordinance was published and the notice given as required in this paragraph,

If a majority of the qualified electors voting as such election shall have approved such ordinance, the same is hereby ratified and declared to be a valid and binding ordinance of such city.

Every officer or assistant, other than the mayor and councilmen, shall receive such salary or compensation as the council shall by ordinance provide, and the salary or compensation of all other employees of such city shall be fixed by the council from time to time, as occasion may demand. (Supersedes Para. 3798, Code of 1942.)

## 3774-51 Meetings of council

Regular public meetings of the council shall be held on the first Monday in July after the election of the mayor and councilmen and thereafter at least twice each month, at such time as the council may, by resolution, provide.

Special meetings may be called at any time by the mayor or by two councilmen. At any and all meetings of the council, a majority of all the members thereof shall constitute a quorum, and the affirmative vote of a majority of all the members of the council shall be necessary to adopt any motion, resolution or ordinance, or to pass any measure whatever, unless a greater number is provided for in this statute. Upon every vote taken by the council the yeas and nays shall be called and recorded, and every motion, resolution or ordinance shall be reduced to writing and read by the clerk before the vote is taken thereon. (Supersedes Para. 3801, Code of 1942.)

## 3774-52 Powers and duties of mayor

The mayor shall be president of the council and preside at all meetings thereof, but he shall not have any power to veto any measure passed by the council. He shall have general supervision of all the affairs and departments of the city government and shall, from time to time, as occasion may demand, report in writing to the council any matters requiring its action. The council shall elect one of its members vice-president of the council, who, in case of a vacancy in the office of mayor, or in the absence or inability of the mayor, shall perform the duties of the mayor. (Supersedes Para. 3802, Code of 1942.)

## 3774-53 Powers and duties of council

Except as limited by law, the council shall have, exercise, and perform all executive, legislative, and judicial powers, duties, and obligations bestowed upon governing authorities of municipalities by this act or by any other general law with regard to municipalities, except in cases of conflict between such laws and this article, in which case this article shall control. The council shall also have the power, from time to time, to create, fill, or discontinue any and all offices and em-

ployments other than those created in this Article III; to increase or decrease the emoluments thereof; to make all needful rules and regulations for the government of the officers and employees of such city and to enforce a strict observance thereof, and to change the same when deemed necessary; to remove any officer or employee elected or appointed by the council, except as limited by law, and to elect or appoint a successor; to issue and sell the bonds or other obligations of such city in the amounts and in the manner provided by law; and generally to enact and enforce all ordinances and resolutions, and to make and perform all contracts for and on behalf of such city, as may be authorized by law or by the charter of such city.

The council shall also require all officers and employees handling or having the custody of any of the public funds of such city to execute good and sufficient bonds, payable to such city, in such amounts as may be fixed by ordinance, and conditioned for the faithful discharge of their duties, the premiums on which bonds shall be paid by the city. (Supersedes Para. 3803, Code of 1942.)

## 3774-54 Administrative departments-how organized

The executive and administrative powers and duties in such cities shall be distributed into and among as many departments as there shall be members of the council, to be defined and designated by ordinance. The council shall, by ordinance, determine the powers and duties to be exercised and performed by each department, and shall assign the various officers and employees of the city to the appropriate department; shall prescribe the powers and duties of such officers and employees and make all such rules and regulations as may be

## ATTENDS MEETING

Mrs. Irby Charming attended a WWI veterans meeting in Quitman, Miss., Saturday, at which time plans for promotion of legislation to correct the cut in veterans pensions which went into effect last month, were discussed.

Among state officers attending the session was Department Commander John Evans of Columbia, also Mrs. Evans.

### NOTICE OF TRUSTEE'S SALE

WHEREAS, on the 26th day of December, 1968, Glendon Sellers, executed and delivered to Gerald Gex, Trustee, a certain deed of trust and note securing the indebtedness therein described, due and payable to J.P. Daurio, which deed of trust is of record in Volume 136, Pages 76, 78 and 77 of the record of mortgages and deeds of trust on land in Hancock County, Mississippi; and

Whereas, in conformity with the rights, powers and authority granted in said deed of trust by the maker thereof to the beneficiary or any legal holder and owner thereof to substitute the trustee named therein, the said J.P. Daurio, beneficiary named in said deed of trust and the present owner and holder of said deed of trust, note and indebtedness secured thereby, did appoint and substitute the undersigned "Bonnie P. Ladner as substitute trustee in the place and stead of Gerald Gex, trustee as aforesaid, as shown by substitution of trustee dated March 16, 1972 in Volume 159, Page 553 of the aforesaid record of mortgages and deeds of trust on land; and

Whereas, default having been made and still persists in the payment of the indebtedness secured by the aforesaid deed of trust, and demand has been made upon the undersigned substituted trustee by the said J.P. Daurio, the present owner and holder of aforesaid mentioned indebtedness, note and deed of trust to foreclose same and sell the property therein described and conveyed to satisfy said indebtedness;

Therefore, I, Bonnie P. Ladner, substituted trustee, will on the 3rd Monday, the 19th day of March, A.D., 1973, within legal hours, at the front door of the County Courthouse in the City of Bay St. Louis, Hancock County, Mississippi, offer for sale and sell, for cash at public outcry, to the highest and best bidder thereof, the following described land in the County of Hancock, State of Mississippi, to-wit:

Lots 15 and 16, Block 94 and Lots 17 through 20, Block 94, Bay St. Louis Land and Improvement Company's Subdivision of Part of the Bay St. Louis Land and Improvement Company's First Addition to the City of Bay St. Louis and Waveland, Mississippi, as per the official plat of said Subdivision dated April 27, 1897, and on file in the office of the Clerk of the Chancery Court of Hancock County, Mississippi.

The title to said property is believed to be good, but I will convey only such title as is vested in me as substituted trustee.

WITNESS my signature, this 14th day of February, A.D., 1973.  
BONNIE P. LADNER  
Substituted Trustee

## LEGAL NOTICE OF OPPORTUNITY FOR PUBLIC HEARING PROJECT

NO. 51-6018-41-044-10 PE

The Mississippi State Highway Department is considering the development of a rest area on the South side of Interstate Highway No. 10 approximately 10.0 miles East of the Louisiana-Mississippi State Line in Hancock County.

Facilities planned at this location include a hospitality station building which will have a tourist information area and public restrooms. Picnic areas with tables and benches, telephones, nature trails, sanitary waste dumps for travel trailers and parking areas will also be provided.

Anyone desiring a public hearing concerning the location and design of the rest area and hospitality station may write the Chief Engineer, Miss. State Highway Department, Post Office Box 1863, Jackson, Miss. 39206.

The deadline for requesting a public hearing is set at March 24, 1973.

## Art Ecology Contest Rules

Rules governing the Art Ecology Contest sponsored by the Bay St. Louis Clean-Up and Beautification Committee are as follows:

1. Entries may be anything useful or artistic made from materials which would eventually be discarded as garbage or trash (such as - cans, plastic, old magazines, etc.)
2. Entries may be no larger than 3 feet in height, width or length.
3. All entries must be clearly marked with the owner's name in an inconspicuous place.
4. Entries may be brought to the Bay St. Louis Youth Center on Ulman Ave from 2:30 to 4:00 P.M. on Tuesday, March 27.
5. All entries MUST be picked up between 5 and 5:30, Friday March 30.

Ribbon prizes will be awarded for the most original and artistic entries.

The Art Ecology Festival, at which all entries will be on display will be open to the general public on March 30 from 2:30 to 5 p.m.

## Police Report

Bay St. Louis police responded to 32 calls during the period Feb. 22-28.

Shell Oil Co. on Booker St. was burglarized Feb. 22 during lunch hour. An undetermined amount of money was taken and one desk in the building was ransacked. The building was entered by prying a lock on the side door.

J.T. Mingo, 24, was arrested Feb. 23 at Eckerd's Drug Store and charged with shoplifting. Mingo was released under \$500 bond and appeared in city court Wednesday night.

All valuables in your home should be marked in case of burglary. The engraver is available now—all you have to do is come to the police station and pick it up.

## FHA Honors Lee Family

The James Oren Lee family of Leetown community, has been selected as the Farm Family of the Year for 1972 in Hancock County by the Farmers Home Administration.

The Lee family operates a Grade A dairy farm utilizing 318 acres of land and a complement of 70 producing cows. The Hancock County Farm Bureau additionally recognized the Lee family's accomplishments by presenting Mr. Lee with a United States Savings Bond and an engraved plaque during ceremonies last week at the dairy farm.

According to Hershel Johnson, FHA supervisor, "Mr. Lee's success is attributed in large measure to his excellent agricultural and farm management practices. He keeps accurate production records and reliable statistics which enables him to keep a high quality and maximum producing herd of dairy cattle. He keeps abreast of all information and actively utilizes agricultural assistance and management practices available to farmers through other Department of Agriculture agencies."

Recognizing farm families for superior farming practices

enables the Farmers Home Administration to increase general public awareness of FHA's scope of activities and the various services available to rural families. In addition, the program emphasizes outstanding accomplishments of FHA families and encourages greater management effort.

Mr. Lee's judicious use of the various services available to him combined with excellent management practices have greatly assisted in his outstanding farming operation.

James Lee started his farming operation in 1960 on a rented farm with 20 beef cows. Since that time he has purchased 163 acres of land, constructed a Grade A dairy barn, built two upright silos and converted to a Grade A dairy operation with 70 producing cows. He has fenced his entire acreage as well as installing cross fences.

More recently, he cleared and developed 35 acres of land and fertilized the entire farm. Ponds and terraces were added to the other improvements making the farm a self-sustaining operation. All four members of the Lee family are active in church and civic affairs of the

HANCOCK COUNTY FARM FAMILY 1972 award is presented to James O. Lee, right, by Hershel Johnson, Farmers Home Administration supervisor, at recent ceremonies held at the Lees' dairy farm in Leetown community. Mrs. Lee holds a plaque and U.S. Savings Bond also presented to the outstanding family by Louis Breaux, Hancock County Farm Bureau president. The Lees' eight-year-old daughter Gloria, and their Australian shepherd puppy were on hand for the ceremony.

(Echo staff photo by Adoree Shortle)

community. Mr. Lee is a Mason, Shriner, member of the Farm Bureau and Veterans of Foreign Wars. He is also currently serving on the Board of Directors and Stockholders of Hancock Industries.

His wife, Janice, is a member of the Leetown

Community Center and serves as assistant Sunday School teacher at the Lee Chapel No. 2 Baptist Church. The Lees' daughter, Tangela, is secretary of the Leetown Homemakers of America and is a member and former secretary of the church young people's choir.

Eight-year-old Gloria is a member of the small children's choir and an active member of the Littlest Angels, a baton twirling group.

### Blue Jeans Hold Meeting

Mrs. K.T. Breland was hostess for the Blue Jeans Garden Club's February 19 meeting at her Daniel St. home.

Plans were formulated to celebrate the club's 25th anniversary at a special luncheon scheduled to be held at the Wheel-In Restaurant on March 19th.

The Garden of the Month plaque was awarded to Mesdames John Everard and Monroe James.

Pruning of cold-damaged plants was discussed. Also the yellow-shafted flicker, a species of bird belonging to the woodpecker family and common in this section of the country, was brought to the attention of members. Pictures were shown of the bird, a description was given and its habits discussed.

Arrangements were voted on with the results: hor-

ticulture-Mrs. Honorine Hugh; dried-Mrs. K.T. Breland; miniature-tie between Mrs. J.C. Goodloe and Mrs. J.E. Servat; potted-Mrs. K.S. Rheams; and wild-Mrs. F.J. Corcoran. The door prize was won by Mrs. Frank Klein, Jr.

## Echoes

Mrs. Whitney Carvin Jr. was honored with a stork shower Friday night with Mesdames William Monti, T.F. Monti, Billy Necaise, Harold Krankey and C.J. Heitzmann at the William Monti home.

A green and white color scheme was used in the decorations and gifts were presented in a decorated baby bathinette.

Games were played with prizes going to Misses Angle Monti and Kelli Carvin.

Mr. and Mrs. A. N. Grass attended the Krewe of Omardz ball at Municipal Auditorium Saturday night.

They were joined in New Orleans by their son-in-law

and daughter Mr. and Mrs. William Henry and children Gaci, Patrick and Nichelle of Lafayette, La., who returned to Waveland with them for a week-end visit.

Also visiting in the Grass home over the weekend were Mr. and Mrs. Lawrence Henry of Mt. Morris, Mich., and Mr. and Mrs. W. L. Grass of New Orleans.

## Snapper Tillers make gardening easier.

Years of research and testing went into making the Snapper Rotary Tiller durable and dependable. And one of the easiest to use.

The fully enclosed chain drive transmission assures performance year after year, even under the most rugged conditions. And you can choose either a 3 or 5 HP engine.

Perfect balance and finger tip controls make the Snapper Tiller easy to handle. And you can make instant depth and wheel adjustments without tools.

So for longer wear and a lot less work, try the tougher Tiller, Snapper, in your garden. You'll find you won't have such a tough row to hoe.

## Miss Campbell Chosen For Career Conference

Nanci Lee Campbell of Bay St. Louis has been chosen by the Jefferson Davis Business and Professional Women's Club, West Biloxi area, as the entrant in the Mississippi Young Career Women's Conference March 24-25 in Vicksburg.

A native of Gulfport, Miss. Campbell, 23, is The Daily Herald-Bay Bureau chief and resides at 507 N. Second St. She is the daughter of Mrs. Robert W. Cassells of Biloxi and James P. Campbell, Gulfport.

Miss Campbell attended Biloxi High School and the University of Mississippi before graduating from the University of Texas at Austin in 1971 with a bachelor of journalism degree in government.

She was associate news editor of the Daily Texan and has worked in the Capitol Bureau of the Fort Worth Star-Telegram in Austin and covered the Texas legislature for the campus newspaper.

Miss Campbell joined The Daily Herald in January 1967 and worked as staff reporter

NANCI CAMPBELL

until she entered college in September. She returned every summer and Christmas vacation as a reporter and joined the staff full-time upon graduation in May 1971. She was promoted to her present position five months later.

In addition to managing the branch office in Bay St. Louis and covering news in Pass Christian, Bay St. Louis,

Waveland and Hancock County, Miss. Campbell has been a member of the legislative coverage team for The Daily Herald for the 1972 and 1973 sessions.

Miss Campbell is a member of the board of directors of the Hancock Chamber of Commerce; a charter member and member of the board of directors of the Bay St. Louis-Waveland Altrusa Club, and a charter member of the Young Women's section of the Gulfport Branch, American Association of University Women, which she serves as legislative chairman.

She is community relations chairman for the Cypress District New Orleans Council Boy Scouts; den mother of Den 4, Pack 206, Bay St. Louis, and a former advisor of The Daily Herald Explorer Post in Journalism.

As the Jefferson Davis BPW's Young Career Woman, Miss Campbell will compete with other entrants throughout Mississippi for the state title of Young Career Woman. Regulations of the conference stipulate that an entrant must be under 28 years of age and must have been employed in a career field for a minimum of one year.

There's only one way to see the Noreids parade!

## Ball Teams Raise More Than \$13,000

It was reported this week that \$13,537.77 had been brought in by S. J. A.-O. L. G. carnival ball teams, Chapman-Paranich and Morreale-Monti. This is the largest amount raised for a ball since its organization. Proceeds from the affair go to Our Lady of the Gulf School.

While the amount raised by the teams has been made known, the identities of the king and queen will not be disclosed until the night of the gala event, which will be stated at 9 p. m. March 2 in St. Joseph's Memorial Hall.

The public is invited to join in the merriment and great the Royal Court of the 40th annual ball.

A few tickets are still available at Bobby Anne Bakery or from Ed Murtagh, ticket chairman. Tickets will not be available at the door.

**TENDER LOVING CARE**  
News From  
Hancock General Hospital

Congratulations to all who worked on the HGH float and did such a fine job. Your second place trophy was well deserved.

Very glad to announce that HGH has its own inhalation therapist in the person of Miss Connie McCain. One more service we can render to the community.

Dietary welcomes Linda Thomas and Ann Debenport this week as new part-time helpers. Very glad to have them both.

Housekeeping welcomes Maria Crossdale as a new maid.

Nel Monti Walder, R.N. has joined Nursing and Helen Grice is training for the Business Office. Hope you enjoy working at HGH.

Service pins were awarded Wednesday to employees who

have been employed full-time at HGH for 5 years or longer. The pins are beautiful. The list of recipients is as follows: Margaret Fairconnetue, Dorothy Friddle, Esther Garcia, Esther Hill, Eunice Singleton, Elizabeth Maurigl, Henry Meyers, Mary Noto, Ester Pepperdene, Genevieve Rhodes, Georgia Singleton, Edna Smith, Rose Smith, Myrtle Terrell, Lillian (Jane) Cuevas, Mercedes Gleber, Mona Santiago, Maryann Ruffin, Willie McLain, and Verna Barabino. Congratulations to all.

**DO YOU HAVE A DRINKING PROBLEM?**  
If you think you have, chances are you do. Contact Alcoholics Anonymous for HELP.  
For information CALL 863-8620.

For the family of the problem drinker, Al-Anon meets Mondays, 8:00 P.M. St. Augustine's Cafeteria.

## Reflections

CHICKENS AND HORSES were the order of the day at Mr. and Mrs. John Benigno's farm on Washington St. in Bay St. Louis in 1923. The farm was located on property which is now the site of the new Western Auto store on Highway 90. Those in the picture, first row from left, Tony Benigno, Mr. and Mrs. Benigno, Sylvester Benigno and Josephine Cacoppe; second row, Norman Benigno, Sylvester Guagliardo, John Benigno Jr., Syl' Chincio, Sam Benigno, Jenny Koberger and Lukey Benigno (baby). Photo courtesy of Mrs. Charles Giametta. (Readers are urged to submit photos to the Echo for use in Reflections. Pictures will be returned unharmed at the Echo office in Bay St. Louis. Use of all photos is left to the discretion of the editor.)

FURNITURE SHOWROOM—Ellen McDonald Kane has been named manager of W.A. McDonald & Sons furniture showroom, which opened yesterday, located at Corner of Main and Second Sts., Bay St. Louis. An open house is planned in the future.

(Echo staff photo by Marileen Maher)

## Yacht Club Hosts Carnival Ball

Sam Whitfield reigned as King Charlie III and Mrs. Omer J. DeBever as queen of Bay-Waveland Yacht Club's annual mock carnival ball Friday night at the Yacht Club.

The king, who arrived aboard his royal barge, was greeted by Captain Travis Hensley and his crew.

The queen, escorted to the throne by Capt. Hensley, wore an aqua chiffon gown with silver and gold threaded design fashioned on Empire lines.

Gold braid accented the lifted waistline and she carried a silver sceptre and a bouquet of yellow pom poms, iris and acacia. Her white satin mantle edged in gold braid, was centered with a sequined Charlie the Tuna.

Maids, Mesdames William Frisbie, Paul Maloney, A. M. Clay and Lila Greenfield were gowned in various colored formals. They carried bouquets of flowers in the traditional carnival colors of purple, gold and green.

Dukes were John Hill, William Flanders, Haskell Doyle and Edmond Fahey III.

Last year's king, Sidney Prague, and queen, Mrs. John McDonald, were introduced; Mrs. McDonald was presented a bouquet of red roses by Commodore H. H. Shattuck.

YACHT CLUB ROYALTY—Mrs. Jo De Beaver and Sam Whitfield reigned as king and queen of the Bay-Waveland Yacht Club's mock carnival ball Friday night.

(Photo by Ed Fayard)

Pete Chapman served as master of ceremonies. The grand march was followed by breakfast and dancing with music by the Martindales.

theme, "Chicken of the Sea." The grand march was followed by breakfast and dancing with music by the Martindales.

JOE BUCCOLA, right, sales manager at Diamondhead, accepts the Hancock County Chamber of Commerce's patron of excellence award from Nicholas Haas, Chamber vice-president. Diamondhead was recognized for having 40 members in the organization, the largest to date for the Chamber. The presentation was made at the membership breakfast Friday morning at Ramada Inn.

## Rev. Neal Named Pastor In Alabama

Rev. Perry D. Neal, pastor of the First Baptist Church in Bay St. Louis has accepted the pastorate of the Eastdale Baptist Church in Montgomery, Ala. effective March 11.

A native of Montgomery, Rev. Neal graduated from Sidney Lanier High School in 1959, and received his B.A. degree from Samford University with a major in religion and a minor in speech. He received his Master of Theology Degree from New Orleans Baptist Theological Seminary in 1970. Rev. Neal served as pastor of the Tunnell Chapel Baptist Church of Wetumpka, Ala. and also of Sister Springs

REV. PERRY NEAL

Baptist Church of Selma, Ala. He served as minister of Activities, Evangelism and Youth at the First Baptist Church in Biloxi before coming to serve as pastor of the First Baptist Church of Bay St. Louis.

Rev. Neal has conducted several revivals in Alabama, Mississippi, Florida, and Louisiana as well as speaking in schools and youth groups. He has served as chairman of the Gulf Coast Association Finance Committee and as Program Chairman for the Pastor's Conference for the Gulf Coast Baptist Association. He served on the Steering Committee for the James Robison Crusade on the Coast in 1971. Rev. Neal has been a weekly columnist with the Sea Coast Echo and has been selected as one of the "Outstanding Young Men of America" and appeared in its annual. He is an avid sports fan, particularly football.

Rev. Neal is married to the former Marcelene Spivey, also of Montgomery. She is a graduate of Robert E. Lee High of Montgomery and has attended New Orleans Baptist Theological Seminary. The Neals will reside at 4418 Wares Ferry Road in Montgomery.

Winners were also announced for the Dental Health Week Poster Contest, sponsored by the PTA. Winners included: 1st Grade, Stephanie Power and Mike Bryan; 2nd Grade, Wayne Crosby; 3rd Grade, John Kidd; 4th Grade, Laura Sexton; 5th Grade, Zena Baker and Michel Maynard. Roger Stewart presented a comprehensive report on the advantages and disadvantages of State PTA Affiliation, to be further discussed at the next meeting. Initial plans were made for the annual Field Day to be April 27 this year. Mrs. Barbara Davis was appointed Field Day Chairman.

On the recommendation of school Principal Billy Sills the PTA voted to contribute \$200 to help send the Learning Disabilities Classes to the Special Olympics in Gulfport and Hattiesburg this year. Refreshments for the meeting were provided by the fifth grade parents, and the attendance plaque was won by Mrs. Lacoste's fifth grade homeroom.

## Test Facility Tackles Environmental Problems

The Mississippi Test Facility, established in the lowlands of southwest Mississippi as a proving ground for large space rockets, is fast becoming a leading environmental research center.

From 1968 through 1970, the National Aeronautics and Space Administration used the 200-square mile facility in the captive firing of large stages of the Saturn V rocket, under development to take the first men to the Moon.

The Space Agency had designed and created the \$300 million facility from scratch, specifically for the testing of space vehicle engines and

stages in a sparsely-populated area.

With the Apollo lunar program drawing to a close, a reduction in the MTF program activities was foreseeable.

NASA wanted to see the facility continue so it began to look about for other research and development activities - compatible with space operations - that could move into the modern plant to take advantage of the investment already made by the government.

The growing environmental field looked like a good candidate, so the space agency started in 1970 to contact federal and state agencies, urging them to check out the possibilities of using MTF.

Two years later, nearly a dozen U.S. state and university organizations are carrying out a broad range of R&D work at the facility.

More than a thousand persons are employed at MTF - most of them in support of the environmental activity. The Marshall Space Flight Center, of which MTF is a part, has not, however, forsaken MTF as a space establishment. The main engine of the new reusable Space Shuttle will enter development testing at MTF, using modifications of test stands that were built originally for testing the Saturn. The test stand modifications are now underway. The Shuttle engine work is still the largest single activity at the site.

Who are the environmental people and what is their work? The National Oceanic &

Atmospheric Administration of the Department of Commerce has five separate operations at MTF, ranging from developing new techniques of locating fish to improving weather data reporting and the accuracy of long range forecasting.

The Department of Interior is working to assess the quality of our national water resources, trying to find solutions to the water scarcity which has been predicted.

Other Interior people, as well as a NASA element, are developing techniques of interpreting Earth resources information received from satellites, as well as developing new techniques for gathering such data from spacecraft and aircraft.

The Environmental Protection Agency has three units at MTF, working in such varied fields as pesticides and water quality.

Additionally, Louisiana State University, Mississippi State University, and the University of Southern Mississippi have established research projects here. And the recently established Gulf Universities Research Corp., a non-profit organization of 21 colleges and universities from five Gulf states and Mexico, will be using MTF as a site for marine environmental research.

Having made a major contribution to man's conquest of space, the Mississippi facility is now employing major energies to improve our use of Earth's limited resources.

## Lott Named Safety Inspector At PPG

Andrew J. Lott IV, a native of Bay St. Louis, has been promoted from operator to Safety Inspector at PPG Industries, Inc., Industrial Chemical Division's Lake Charles, La., plant according to an announcement by A.T. Raetzsch, Works Manager there.

The son of Jack Lott of Kiln, he joined PPG in 1967 as a utility crewman and became an operator in 1968. Lott is a 1955 graduate of St. Stanislaus High School and has attended both Mississippi State and McNeese State Universities. While at Mississippi State he was active in the Newman Club and the Pershing Rifles. He is a veteran of service in the U.S. Marine Corps from 1958 to 1961.

Lott and his wife, the former Noelle Semple of Lake Charles, are the parents of one son and one daughter. They reside in Lake Charles.

PPG Industries, Industrial Chemical Division, began operations in Lake Charles in 1947 as a major producer of organic chemicals. The plant entered into the organic field in 1960 and since has experienced much growth in both fields. Presently, fourteen products are manufactured in Lake Charles making

the plant one of the largest and most dynamic of its kind in the world. Other major chemical plants operated by PPG Industries in the United States are located in Beaumont, Texas, Corpus Christi, Texas, New Martinsville, West Virginia and Barboursville, Ohio.

FOR OVER 80 YEARS"

## Giametta Promoted At Texas Paper

A. J. (Jim) Giametta, son of Mrs. Charles Giametta of Old Spanish Trail, Bay St. Louis, and the late Charles Giametta, was named managing editor of the Longview Morning Journal, an East Texas daily newspaper which serves 18 Texas counties.

Giametta's appointment was made Saturday by Mrs. Carl L. Estes, publisher and chairman of the board of the Longview News Co., which also publishes the Longview Daily News.

Giametta, formerly East Texas Editor, joined the Journal in mid-1971, coming from Hattiesburg, Miss., where he was Associated Press wire editor for the Hattiesburg American.

He holds a BS degree in journalism from the University of Southern Mississippi. At USM he was wire editor and reporter for the award-winning Student Prints.

He also holds an associate of arts degree from Pearl River College in Poplarville. At PRC he served as editor of the Dixie Drawl, college newspaper, was photographer for the Wildcat and worked as an assistant in the Public Information Department.

The Biloxi native and graduate of Bay Senior High School started his journalism career with the Sea Coast Echo where he worked for five years in both the mechanical and editorial departments.

While on the Echo staff, he served as sports editor, photographer, advertising salesman and general news reporter.

In Longview, he is a member of the Longview Lions Club, St. Anthony's

A. J. (Jim) GIAMETTA

Catholic Church, Wildflower Trails Inc., an organization he helped form, the Southern Journalism Society and the Longview Downtown Development Corp.

He was appointed to District 2-22—Lions International cabinet where he holds the title of District Editor for the Texas Lion and serves as public relations chairman for 55 East Texas Lions Clubs.

An Air Force veteran, he served as a security officer in charge of classified documents at Tyndall AFB, Fla. and Howard AFB, Republic of Panama.

**ROTARY OFFICERS**  
Talmadge Hayborn of Waveland has been elected president of the Bay St. Louis Rotary Club for 1973-74.

Other officers elected are Fred Fisher, vice president; and Gud Uram, secretary-treasurer.

Nicholas Haas, Richard Thomas, Gil Able and William Frible have been elected to the Board of Directors.

## Miss Peterson Weds C.J. Hoda

Infant of Prague Catholic Church, White Cypress, was the setting for the February 18 candlelight wedding of Miss Crystal Joann Peterson, daughter of Mr. and Mrs. Oscar J. Peterson of Necaise Crossing, and C.J. Hoda, Necaise Crossing, son of the late Clayton Hoda and the late Mrs. Irene Hoda Moran.

Rev. Pierre Hissey and Rev. Victor Seidel, celebrants of the Nuptial Mass, performed the double ring ceremony before an altar banked with arrangements of white and yellow gladiolus.

Roland Ladner, uncle and godfather of the bride, was lector. Kenny Lee, nephew of the bride, and Lonnie Necaise served as altar boys. Mrs. John McKenna, organist, accompanied Conrad Mautfray, soloist, who rendered a selection of nuptial music.

Given in marriage by her father, the bride wore a white peau de sole formal gown fashioned on Empire lines with long lantern sleeves ending in points over the wrists. Appliques of peau d'ange lace bordered the hemline and matching lace bordered her full length mantilla. She carried a yellow orchid surrounded by white pompons.

Miss Sandra Cuevas, Necaise Crossing, attended the bride as maid of honor, and Mrs. Howard Ladner, Steep Hollow, was matron of honor. Bridesmaids were Misses Jannie Brown, Dedeaux, Christine Breaux, White Cypress, and Sharon Garriga, Pass Christian. Lynn Garriga, the bride's niece, and Wendy Necaise, niece of the

MR. AND C.J. HODA

groom, were flower girls, the groom's nephew Marty Woods, served as ringbearer. Howard Ladner attended the groom, as best man. Groomsmen were E.J. Hoda and Alan Hoda of Slidell, La., Mike Woods and Troy Ladner, DeLisle. Kickey Lee and Barney Necaise were ushers.

Following the ceremony a reception was held at the American Legion Home, White Cypress. Mrs. Peterson chose for the

occasion a two-piece, bone colored bonded knit suit with matching accessories and a corsage of white carnations interspersed with gold ribbons.

## City Of Waveland Ordinance No. 80

ORDINANCE NO. 80

AN ORDINANCE FIXING RATES, FEES AND CHARGES FOR THE SEWER SERVICES AND FACILITIES OF THE SEWERAGE SYSTEM OF THE CITY OF WAVELAND, MISSISSIPPI—PROVIDING APPLICABLE REGULATIONS TO THE USE OF SUCH SEWERAGE SYSTEM.

BE IT ORDAINED by the Board of Aldermen of the City of Waveland,

PURPOSE

The general purpose of this set of rules and regulations is to set forth and provide for the right and proper use or uses of the facilities of the Waste Water Control System of Waveland, Mississippi. To accomplish this purpose, all users of the facilities of the Waste Water Control System must comply with the rules and regulations presented herein.

These rules and regulations:

1. Establish a uniform procedure in the levying of the service and improvement charges to maintain equity in the billing throughout the City's area of service.

2. Prohibit the contribution of waste water which may cause operational or maintenance difficulties of deterioration in the sewers, force mains, pumping stations and other structures appurtenant to the Waste Water Control System.

3. Establish a control for contributed waste water which requires greater treatment expenditures than are required for equal volumes of normal domestic waste.

4. Establish treatment requirements for industrial wastes before discharge to the public sewers, in cases where the strength characteristics of the wastes are above normal.

5. Establish a uniform procedure for design, installation, inspection,

operation and maintenance of private waste water treatment and disposal systems, extensions of public sewer systems, laterals and connections to sewer mains.

### SCOPE

These rules and regulations are a part of all residential, commercial, industrial, and public contracts for receiving waste water collection and treatment service from the City and apply to all service received from the City whether the service is based upon contract, agreement, signed application, or otherwise.

SECTION I DEFINITIONS For the purpose of these rules and regulations and unless the context specifically indicates otherwise, the following terms shall have the meaning ascribed:

1. "B.O.D." (Biochemical Oxygen Demand) shall mean the quantity of oxygen utilized in the biochemical oxidation of organic matter under standard laboratory procedures in five days at 20 degrees Centigrade (68 degrees Fahrenheit) expressed in milligrams per liter.

2. "C.O.D." (Chemical Oxygen Demand) shall mean the quantity of oxygen utilized in the rapid oxidation of organic matter by a strong chemical oxidant in accordance with "Standard Methods" expressed in milligrams per liter.

3. "Chlorine Demand" shall mean the amount of chlorine required to produce a free chlorine residual of 0.1 mg-l after thirty minutes contact time expressed in milligrams per liter.

4. "City" shall mean the City of Waveland, Mississippi.

5. "Combined Sewer" shall mean a sewer receiving all waste water including surface runoff.

6. "Cooling Water" shall mean the water used for heat exchange and discharged from any system of condensation, air conditioning,

cooling, refrigeration, or other such system, but which has not been in direct contact with any polluting material.

7. "Customer" means any person who receives sewer service from the City under either an express or implied contract requiring such person to pay the City for such service.

8. "Dwelling" means any single structure, with auxiliary buildings, occupied by one or more persons or households for residential purposes.

9. "Extra Strength Waste Water" shall be defined as any waste water that has any characteristic or combination of characteristics exceeding the characteristics of normal domestic waste water and that requires effort or expenditure over and above that required for treatment of normal domestic waste water.

10. "Industrial Wastes" are the liquid wastes, other than domestic waste water, resulting from processes or operations employed in industrial or commercial establishments.

11. "Natural Outlet" shall mean any point of discharge into a water course, pond, ditch, lake, stream or other body of surface or ground water.

12. "Normal Domestic Waste Water" shall be regarded as "normal" for Waveland. Normal domestic waste water shall contain a daily average of not more than 2,500 pounds (300 milligrams per liter) of suspended solids; not more than 2,000 pounds (240 milligrams per liter) of B.O.D.; and not more than 417 pounds (50 milligrams per liter) of hexane soluble matter (grease and oil), each, per million gallons.

13. "Person", "Enterprise", "Establishment" or "Owner" shall mean any individual, firm, company, association, society, corporation or group using the Waste Water Control System.

14. "pH" shall mean the logarithm of the reciprocal of the weight of hydrogen ions in grams per liter of solution. A stabilized pH will be considered as a pH which does not change beyond the specified limits of 5.5 to 9.5 when the waste is subjected to aeration.

15. "Properly Shredded Garbage" shall mean the wastes from the preparation, cooking, and dispensing of food that have been shredded to such degree that all particles will be carried freely under the flow conditions normally prevailing in public sewers, with no particle greater than 1/4 inch in any dimension.

16. "Premise" means any structure or group of structures operated as a single business or enterprise, provided, however, the term "premise" shall not include more than one dwelling.

17. "Public Sewer" shall mean a sewer controlled by the city.

18. "Sanitary Sewer" is a sewer intended to receive domestic waste water and industrial waste, without the admixture of surface water and storm water.

19. "Sanitary Waste Water" shall mean waste water discharging from the sanitary conveniences of dwellings, (including apartment houses and hotels) office buildings, factories or institutions, and free from storm and surface water.

20. "Sewer" shall mean a pipe or conduit for carrying waste water.

21. "Sewer Improvement Charge" shall mean the amount charged to the owner or occupant of each occupied lot or parcel of land which is furnished access to sewer lines to finance and amortize construction of the sewerage collection system extension.

22. "Sewer Lateral" shall consist of the pipe line extending from any sewer main of the City to private property.

23. "Sewer Service Charge" and "Waste Water Service Charge" shall be synonymous and shall mean the amount charged to the customer for operation, maintenance and capital improvements for the Waste Water Control System.

24. "Sludge" shall mean the discharge of any waste water exceeding a concentration or flow greater than four times that of the average daily waste water discharge, and which is discharged continuously for a period longer than fifteen minutes.

25. "Standard Methods" shall mean "Standard Methods for the Examination of Water and Wastewater", latest edition, published by the American Public Health Association, the American Water Works Association, and the Water Pollution Control Federation.

26. "Storm Sewer" or "Storm Drain" shall mean a pipe or conduit, ditch or canal which carries storm and surface waters and drainage, cooling water or other unpolluted water, but excludes waste water.

27. "Suspended Solids" shall mean solids that either float on the surface of or are in suspension in waste water, and which are removable by laboratory filtering.

28. "Unpolluted Water or Waste" shall mean any water or waste containing no free or emulsified grease or oil; acid or alkali, phenols or other substances imparting taste and odor in receiving waters; toxic and poisonous substances in suspension, colloidal state or solution; and noxious or odorous gases and other polluting materials.

29. "Waste Water" shall mean the water carried wastes from residences, business buildings, institutions and industrial establishments, singular or in any combination, together with such ground, surface and storm water as may be present.

30. "Waste Water Control System" shall mean all facilities for collecting, pumping, treating and disposing of waste water.

31. "Waste Water Treatment Plant" shall mean any arrangement of devices and structures used for treating waste water.

SECTION II SERVICE APPLICATION

General: Domestic use of the facilities of the Waste Water Control System shall be defined and limited to single family, multi-family, apartment or other dwelling unit containing sanitary facilities for disposal of domestic waste water and used for RESIDENTIAL PURPOSES ONLY.

1. Obtaining Service a. Application A formal application for either original or additional service must be made at the office of the Waste Water Control System and be duly approved before connection is made. The receipt by the City of a prospective customer's application for service shall not obligate the City to render the service. If the service applied for cannot be supplied in accordance with the City's rules and regulations, and general practice, there shall be no liability of the City to the applicant for such service.

b. Outside City Limits The City of Waveland by agreement will receive, treat, and dispose of the Waste Water of Municipalities, and unincorporated areas in the metropolitan area of service subject to regulations hereto. Any person owning or controlling premises located beyond the corporate limits of the City of Waveland and desiring to install a plumbing system for the purpose of discharging domestic waste water and/or industrial waste into the sanitary sewers, may do so by complying with the requirements of this Ordinance; and to all amendments to said Ordinance as the same may be adopted from time to time.

There shall be a connection charge established for all connections to the Waste Water Control System from property located outside the corporate limits of the City.

2. Inspection of Connections No sewer service shall be connected until the building plumbing and connections incident thereto shall have been inspected and approved by the Plumbing Inspector of the City. The sewer service connection must be inspected and approved by an Inspector of the Waste Water Control System before any underground portion is covered.

3. Interruption of Service The City shall not be liable for any damage resulting from failure of any sewer main; service pipes or valve, or by discontinuing the operation of its waste water collection, treatment and disposal facilities for repair, extensions, or connections or from the accidental failure of the waste water collection, treatment and disposal facilities from any cause whatsoever. In case of emergency the City shall have

the right to restrict the use of its waste water collection, treatment and disposal facilities in any reasonable manner for the protection of the City and its Waste Water Control System.

4. Discontinuance of Service: Refusal to Connect Service

The City shall, after written notice, have the right to discontinue service or to refuse to render service for a violation of, or a failure to comply with, these rules and regulations, the customer's application and agreement for service, or the payment of any obligation due to the City's Waste Water Control System. Such right to discontinue service shall apply to all service received through a single tap or service, even though more than one customer or tenant is furnished service therefrom, and even though the delinquency or violation is limited to only one such customer or tenant. Discontinuance of service by the City for any causes stated in these rules and regulations shall not release the customer from liability for service already received or from liability for payments thereafter become due under the minimum bill provisions or other provisions of the customer's agreement. The City shall have the right to refuse to render service to any applicant whenever the applicant or any member of the household, apartment or dwelling unit to which such service is to be furnished, is in default in the payment of any obligation to the City or has heretofore had his service disconnected because of a violation of the rules and regulations of the City.

5. Use and Maintenance of Sewer Laterals Sewer laterals that have been previously used but have been abandoned due to the raising of building structure may be used in connection with new buildings only when they are found, on examination and test by the inspector, to meet all requirements of this ordinance. All others must be sealed to the satisfaction of the Inspector.

6. Private Waste Water Disposal Where a public sanitary or combined sewer is not available, the building sewer shall be connected to a private waste water disposal system complying with the provisions of this section.

a. Application A formal application for either original or additional service utilizing a private waste water disposal system must be made at the office of the Waste Water Control System and be duly approved before construction or reconstruction is commenced.

b. Design and Installation 1. Septic tanks and underground disposal fields shall conform to the drawings, dimensions, and specifications prepared by the Waste Water Control System for such purpose and approved by the Inspector. The septic tank and disposal field shall be constructed or reconstructed only in locations which have been approved by the Inspector after making such tests and examinations of the site as he deems essential to determine if the soil absorption, topography, drainage area, etc., are satisfactory for underground disposal. The discharge from the septic tank shall be disposed of in such a manner that it may not create a nuisance on the surface of the ground or pollute the underground water supply.

2. Plans and specifications for private waste water disposal systems other than septic tanks and drain fields must be submitted to the Waste Water Control System for review and written approval of the Inspector must be received before commencement of construction.

c. Inspection A permit for a private waste water disposal system shall not become effective until the installation is completed to the satisfaction of the Inspector. He shall be allowed to inspect the work at any stage of construction and, in any event, the applicant for the permit shall notify the Inspector when the work is ready for final inspection, and before any underground portions are covered. The inspection shall be made

MR. AND MRS. HORACE HODGES

## Hodges-Fulton Vows Exchanged

Miss Ada Lee Fulton, daughter of Mr. and Mrs. Hubert Fulton of Pearllington, and Horace Hodges, son of Mr. and Mrs. Frank Jones, Pearllington, were married in a double ring ceremony January 17 at the Greater Mt. Zion A.M.E. Church, Pearllington, with Rev. R.N. Sams, pastor, officiating.

Given in marriage by her father, the bride wore a white silk brocade gown fashioned with round neckline and long sleeves. Her short veil of illusion fell from a band of flowers and she carried a bouquet of flowers fashioned of lace.

Mrs. Imogene Neely attended her cousin as matron of

honor. Bridesmaids were Misses Martha Gillum, Shirley Sanders, Viola Sams, Yolanda Antoinette Willis and Barbara Oliver. Misses Mary Jones, Georgia Jones, Nette Willis, and Shirley Tillmann were flower girls and Prince Fulton, brother of the bride, carried the rings.

Clarence Sanders served the groom as best man and Robert Fulton, William Willis and Don Keith Lee were groomsmen.

Following the ceremony a reception was held at the home of the bride's parents.

For traveling the bride chose an orange suit with matching accessories. The couple will make their home in Pearllington.

### JUDO WINNER

Gerry Townsend 12, a seventh grade student at Bay Junior High, won first place in the All-Southern Judo Championships held at Louisiana State University February 25. Gerry is the son of Mr. and Mrs. G.E. Townsend of Fifth Street in Waveland.

## City Of Waveland Ordinance No. 80 Continued

within 72 hours of the receipt of notice by the Inspector, exclusive of holidays and Sundays.

### d. Maintenance

All private waste water disposal systems must be operated and maintained in an efficient manner and in such a way that no public nuisance or health problems are created by operation of the system.

All maintenance and operation of private waste water disposal systems shall be the responsibility of the owner of said system.

### 7. Availability of Public Sewer

At such time as a public sewer becomes available to a property served by a private waste water disposal system, a direct connection shall be made WITHIN 120 DAYS to the public sewer in compliance with this ordinance. Any septic tanks, cesspools, and similar private waste water disposal facilities shall be abandoned and filled with suitable material. An extension of time may be granted by the City for cause; however, the granting of said extension of time will not waive the payment of the sewer service fee. The sewer shall be considered available where the first floor of the building above ground level can be served by the City's main.

Where a sewer is available, it will be presumed that the waste water from the premises is discharged either directly or indirectly into the sewer, and the property shall be billed for sewerage service.

Where new sanitary sewers are constructed, the premises which can or should be connected to the new sewer, shall be subject to the Waste Water Service. However, if the making of connection is delayed, the property shall be subject to such charges thirty (30) days after the sewer is accepted by the Waste Water Control System.

### 8. Use of Public Sewers

#### a. Storm Drains and Natural Outlets

Storm water and all other unpolluted drainage shall be discharged to such sewers as are specifically designated by the City as combined sewers or storm sewers. Cooling water may be discharged with approval of the City to a storm sewer or natural outlet. It shall be unlawful to discharge to any natural outlet within the City, or in any area under the jurisdiction of said City, any waste water except where suitable treatment has been provided in accordance with provisions of this ordinance.

#### b. Connections

Initial connections to City mains and trunk line sewers are to be made into wye or other connection provided in line. If for any reason wyes or other connection are not available, the connection to City main or trunk will be made by the City.

#### c. Discharge Regulations

No person shall discharge or cause to be discharged to a sanitary or combined sewer any of the following described substances, materials, waters or wastes:

#### 1. Any storm water, surface water, ground water, roof runoff, sub-surface drainage or cooling water, such as from boilers, and the like, to any sanitary sewer.

2. Any gasoline, benzene, naphtha, fuel oil, kerosene, mineral oil, or any other flammable or explosive liquid, solid or gas.

3. Any ashes, cinders, sand, mud, straw, plant material, glass, metal, rags, plastic, wood, paint residue, or any other solid or viscous substance capable of causing obstruction to the flow in sewer lines or other interference with the proper operation of the Waste Water Control System.

4. Any waters or wastes containing a toxic or poisonous substance such as pesticides, herbicides, rodenticides or like material in sufficient quantity to injure or interfere with any sewage treatment process, constitute a hazard to humans or animals, or create any hazard in the receiving stream, storm water overflow, or effluent from the waste water treatment plant.

5. Any garbage that has not been properly shredded.

### SECTION III COMMERCIAL AND INDUSTRIAL

#### General: Commercial and

industrial use of the facilities of the Waste Water Control System shall be defined to include all uses with the exception of domestic use as defined in Section II of this ordinance. It shall include but not be limited to wastes from industrial processes, food wastes from restaurants or cafeterias, hospital wastes, contaminated cooling water from private or public institutions or buildings, animal and poultry processing wastes, and wastes from septic tanks or other private disposal systems.

#### 1. Obtaining Service

##### a. Application

A formal application for either original or additional service must be made at the office of the Waste Water Control System and be duly approved before connection is made. The application shall be in the prescribed form of the Waste Water Control System and shall include as a minimum the estimated pH, temperature, volume and concentration of BOD, COD, Suspended Solids, grease, toxic substances and/or metals together with a drawing to approximate scale showing plan of property, water distribution system and sewer layout indicating existing and proposed treatment and/or equalization facilities. The receipt by the City of a prospective customer's application for service shall not obligate the City to render the service. If the service applied for cannot be supplied in accordance with the City's rules and regulations, there shall be no liability of the City to the applicant for such service.

##### b. Outside Corporate Limits

1. The City of Waveland by agreement will receive, treat, and dispose of the waste water of commercial and industrial users located in unincorporated areas in the Area of Service. Any person owning or controlling premises located beyond the corporate limits of the City of Waveland and desiring to install a plumbing system for the purpose of discharging commercial or industrial waste water into the sanitary sewers of the City may do so by complying with the requirements of this ordinance. There shall be a connection charge established for all connections to the Waste Water Control System from property located outside the corporate limits of the City.

##### 2. There shall be an additional connection charge over and above the minimum sum specified herein where the character or volume of waste water to be discharged to the system is such that additional charges are required. The additional amount shall be determined by the Inspector and shall be specified at the time formal application for service is received and approved at the Waste Water Control System.

##### 2. Inspection of Connections

No sewer service shall be connected until the building plumbing and connections incident thereto shall have been inspected and approved by the Plumbing Inspector of the City. The sewer service connection must be inspected and approved by an Inspector of the Waste Water Control System before any underground portion of the connection is covered.

##### 3. Interruption of Service

The City shall not be liable for any damage resulting from failure of any sewer main, service pipes or valve, or by discontinuing the operation of its waste water collection, treatment and disposal facilities, for repair, extensions, or connections or from the accidental failure of the waste water collection, treatment and disposal facilities from any cause whatsoever. In cases of emergency the City shall have the right to restrict the use of its waste water collection, treatment and disposal facilities in any reasonable manner for the protection of the City and its Waste Water Control System.

##### 4. Discontinuance of Service: Refusal to Connect Service

The City shall, after written notice, have the right to discontinue service or to refuse to render service for a

violation of, or a failure to comply with, these rules and regulations, the customer's application and agreement for service, or the payment of any obligation due to the City's Waste Water Control System.

Such right to discontinue service shall apply but is not limited to all service received through a single tap or service, even though more than one customer or tenant is furnished service therefrom, and even though the delinquency or violation is limited to only one such customer or tenant.

Discontinuance of service by the City for any causes stated in these rules and regulations shall not release the customer from liability for service already received or from liability for payments due under the minimum bill provisions or other provisions of the customer's agreement. The City shall have the right to refuse to render service to any applicant whenever the applicant or any member of the industry, company or firm to which service is to be furnished, is in default in the payment of any obligation to the City or has heretofore had his service disconnected because of a violation of the rules and regulations of the City.

### 5. Use and Maintenance of Sewer Laterals

Sewer laterals that have been previously used but have been abandoned due to the razing of building structure may be used in connection with new buildings only when they are found, on examination and test by the City, to meet all requirements of this ordinance. All others must be sealed to the satisfaction of the Inspector.

### 6. Use of Waste Water Control Facilities

The primary function of the Waste Water Control System is to collect, treat, and dispose of polluted waste water in a manner consistent with prevention of water quality degradation in streams, lakes, rivers, and water courses in the area of service. To comply with the necessary effluent water quality criteria established by the Mississippi Air and Water Pollution Control Commission and the U.S. Environmental Protection Agency, more restrictive industrial and commercial discharge requirements are required and herein established.

#### a. Normal Domestic Strength Discharge

It is the intent of this ordinance to prohibit all commercial and industrial users from discharging waste water containing grease, BOD<sub>5</sub>, or suspended solids in excess of that contained in normal domestic waste water as defined in Section 1 of this Ordinance, into the facilities of the Waste Water Control System for treatment. This requires that the waste water from industrial or commercial users of the Waste Water Control System shall contain not more than fifty milligrams per liter (50 mg/l) of grease, two hundred forty milligrams per liter (240 mg/l) of BOD<sub>5</sub>, nor three hundred milligrams per liter (300 mg/l) of suspended solids.

#### b. Maximum Quantity Limitations

In addition to concentration requirements stated in paragraph (a), no commercial or industrial user shall be allowed to discharge or cause to be discharged a total of more than 417 pounds of grease per twenty-four hour period, or more than 2,000 pounds of BOD<sub>5</sub> per twenty-four hour period, or more than 2,500 pounds of suspended solids per twenty-four hour period.

#### c. Exemptions

Requests for exemption from concentration requirements by commercial or industrial users discharging less than 100,000 gallons per day into the Waste Water Control System shall be considered upon formal application demonstrating conclusively that compliance with stated concentration standards is technically or economically infeasible and that the discharge, if exempted, will not interfere with the normal collection and treatment processes used by the Waste Water Control System. Commercial and industrial users of the Waste Water Control System will not be

exempted from the total discharge limitation under any circumstances.

Final decisions regarding requests for exemptions will be rendered in writing by the Inspector. Exemptions are subject to annual review and renewal by the City, and may be revoked more frequently if required.

### d. Discharge Regulations and Restrictions

Commercial and industrial users of the facilities of the Waste Water Control System shall comply with the following additional regulations and restrictions before discharging or causing to be discharged any waste water to the public sewer system.

1. All measurements, tests, and analyses of the characteristics of waters and wastes to which reference is made in this ordinance, and amendments thereto, and these rules and regulations shall be determined in accordance with the latest edition of "Standard Methods", and shall be determined upon suitable samples taken at the control manhole provided for in paragraph 2 below. In the event that no special manhole has been constructed, and if other facilities for measuring and sampling are not available, the control manhole shall be considered to be the nearest downstream manhole in the public sewer to the point at which the building sewer is connected.

#### 2. When required by the City, the owner of any property served by a building or plant sewer or sewers carrying commercial or industrial wastes shall install a suitable manhole or manholes in the building sewer to facilitate observation, sampling and measurement of the combined wastes from his premises. Such manhole, when required, shall be accessible and safely located, and shall be constructed in accordance with plans approved by the City. The manhole shall be installed by the owner at his expense and shall be maintained by him so as to be safe and accessible at all times. Automatic sampling and flow measuring devices shall be required for all industrial waste waters when the average flow exceeds 100,000 gallons per day.

3. Where preliminary treatment facilities are provided for commercial or industrial waste water, they shall be maintained continuously in satisfactory and effective operation by the owner at his expense, and shall be subject to periodic inspection by the City. The owner shall maintain operating records and shall submit to the City a monthly summary report stating the average flow, BOD, and suspended solids concentration of the influent and effluent and added parameters as may be prescribed by the City to show satisfactory performance of the treatment facilities. All analytical tests shall be performed by an approved laboratory, either commercial or in plant.

#### 4. No water or wastes shall be discharged to the public sewer in such a way that the volume or concentration of suspended solids, BOD, or other substance causes sufficiently sudden changes in the waste water as it arrives at the waste water treatment plants to materially or unreasonably interfere with their proper operation. Such waste water if otherwise acceptable for admission shall be retained in a holding tank or tanks of approved capacity and be released at a rate to provide the necessary distribution and dilution to avoid undue burden and shock load on the Waste Water Treatment Works.

5. Grease, oil and sand interceptors or traps shall be provided when they are necessary for the proper handling of liquid wastes containing grease in excessive amounts, or any flammable wastes, and other harmful ingredients except that such interceptors or traps shall not be required for private living quarters or dwelling units. All interceptors or traps shall be of a type and capacity approved by the City and shall be located so as to be readily and easily accessible for cleaning and inspection. Where installed, all grease, oil and sand interceptors or traps

shall be maintained by the owner at his expense, in continuously efficient operation at all times.

6. No person shall discharge or cause to be discharged any storm water, surface water, ground water, roof runoff, sub-surface drainage or cooling water, such as from boilers, and the like, to any sanitary sewer. Storm water and all other unpolluted drainage shall be discharged to such sewers as are specifically designated by the City as combined sewers or storm sewers. Cooling water may be discharged with written approval of the City to a storm sewer or natural outlet. It shall be unlawful to discharge to any natural outlet within the City, or in any area under the jurisdiction of said City, any waste water except where suitable treatment has been provided in accordance with provisions of this ordinance.

7. Initial connections to City mains and trunk line sewers are to be made into wye or other connection provided in line. If for any reason wye or other connection is not available, the connection to City main or trunk will be made by the City.

#### 8. No person shall discharge or cause to be discharged to a sanitary or combined sewer any of the following described substances, materials, waters or wastes:

a. Any liquid or vapor having a temperature higher than 100 degrees Fahrenheit (37 degrees Centigrade).

b. Concentrated dye wastes, spent canning solutions, or other wastes which are highly colored. Maximum apparent color concentration shall not exceed 1,000 color units.

c. Wastes containing total dissolved solids (such as sodium chloride, calcium chloride, or sodium sulfate) in excess of 5,000 mg/l.

d. Any waste that has a chlorine demand of over 15 mg/l.

e. Any waste that has a COD concentration greater than 800 milligrams per liter (mg/l) or a quantity that exceeds 5,000 pounds per million gallons discharged to the Waste Water Control System.

f. Any average daily flow that exceeds 4 percent of the

Maximum Average Daily Concentration

Maximum Average Daily Quantity

Cadmium as Cd 2 mg/l 2 lb.-day

Iron as Fe 15 mg/l 15 lb.-day

Chromium as Cr 5 mg/l 5 lb.-day

Copper as Cu 3 mg/l 3 lb.-day

Zinc as Zn 2 mg/l 2 lb.-day

Nickel as Ni 2 mg/l 2 lb.-day

n. Any cyanides, in any detectable quantity or concentration.

o. Any waste water which by interaction with other waste water in the public sewer system creates any condition deleterious to structures and treatment processes.

p. Any noxious or malodorous gas or substance, whether singly or by interaction with other wastes, is capable of creating a public nuisance or hazard to life or preventing personnel entry into sewers for their maintenance and repair.

q. Any long half-life (over 100 days) of toxic radioactive isotopes, without written permission of the City. The radio isotopes <sup>131</sup>I and <sup>32</sup>P used at hospitals are not prohibited if dilution at the source is determined to be adequate by the City.

r. Any garbage that has not been properly shredded.

9. No statement in this ordinance is intended or may be construed to prohibit the City from making specific requirements more restrictive where wastes are determined to be harmful or destructive to the facilities of the Waste Water Control System, or to create a public nuisance, or to cause the discharge of any treatment facility operated by the Waste Water Control System to violate effluent or stream quality standards imposed or as may be imposed by the Mississippi Air and Water Pollution Control Commission and the U.S. Environmental Protection Agency.

### 7. Private Waste Water Treatment

Any waste water discharge from a commercial or industrial user of the Waste Water Control System exceeding the requirements established in this ordinance, shall be pretreated at the point

of origin in a private waste water treatment plant provided, maintained and operated by the owner. The discharge from the pretreatment facility must comply with the effluent standards established by this ordinance before use of the sewer system for disposal is allowed.

a. Existing Facilities All commercial or industrial users of the Waste Water Control System who have pretreatment facilities in current operation must submit information to the Waste Water Control System specifying type of pretreatment performed, manufacturer of any proprietary equipment used, capacity and dimensions of equalization basins, daily average and peak flows and concentrations of influent and effluent of the pretreatment facility, and other pertinent information required to determine adequacy and efficiency of pretreatment.

b. Design and Construction All commercial or industrial users of the Waste Water Control System who elect or are required to construct new or additional facilities for pretreatment, equalization or other process necessary for compliance with the provisions of this ordinance shall submit plans, specifications, and other pertinent information relative to the proposed construction to the City for approval. Written approval of the City must be obtained before construction of new or additional facilities may begin. The plans, specifications, and other pertinent information submitted to the city for approval will be retained as file material for future reference.

#### c. Inspection of Facilities

A permit for the operation of a private waste water treatment or equalization

system shall not become effective until the installation is completed to the satisfaction of the City, and written approval for operation is issued to the owner by the City. The City shall be allowed to inspect the work at any stage of construction, and in any event, the applicant for the permit shall notify the City when the work is ready for final inspection. In addition, the City shall be allowed to make periodic inspections of the facilities in operation as such inspections are deemed necessary.

d. Maintenance of Facilities It shall be the responsibility of the owner to maintain all waste water treatment or equalization facilities in good working order at all times. The Waste Water Control System must be notified in writing when pretreatment facilities will not be or are not operative by reason of equipment malfunction, emergency or routine maintenance, or any reason whatsoever. It shall be the responsibility of the owner to repair and maintain all pretreatment facilities on a high priority basis.

### 8. Commercial Waste Water Disposal Services

#### a. Application for Permit

No person, firm, association, or corporation shall clean out, drain or flush any septic tank or excreta disposal system within the corporate limits of the City unless such person, firm, association or corporation obtains a permit from the City to perform such acts or services. Any person, firm, association or corporation desiring a permit to perform such services shall file with the City an application for such permit on the prescribed form. Upon any such application, said permit shall be issued by the City when the conditions of this ordinance have been met and providing the Inspector is satisfied the applicant has adequate and proper equipment to perform the services contemplated and has sufficient knowledge of septic tank or other waste water or excreta disposal system construction to perform the services contemplated in a safe and competent manner.

#### b. Fees

For each permit issued under the provisions of this ordinance an annual service charge therefor shall be paid to the City, said service charge to be \$100.00 per year. Any such permit granted shall be for one full fiscal year of the City or a fraction thereof, and the full service charge shall be payable for any fraction of the fiscal year, and shall continue in full force and effect from the time issued until the ending of the fiscal year of the City unless sooner revoked, and shall be non-transferable.

#### c. Designated Disposal Locations

The City shall designate approved locations for the emptying and cleansing of all equipment used in the performance of the services rendered under the permit herein provided for, and it shall be a violation hereof for any person, firm, association or corporation to empty or clean such equipment at any place other than a place so designated.

#### d. Revocation of Permit

Failure to comply with all the provisions of this ordinance shall be sufficient cause for the revocation of such permit by the City. The possession within the City limits of Waveland by any person of any motor vehicle equipped with a body type and accessories of a nature and capable of serving as a septic tank or waste water or excreta disposal system cleaning unit shall be Prima Facie evidence that such person is engaged in the business of cleaning, draining, or flushing septic tanks or other waste water or excreta disposal systems within the corporate limits of Waveland.

### SECTION IV MISCELLANEOUS PROVISIONS

#### 1. Power and Authority of Inspectors

a. Entry on Private Property Authorized employees of the City shall be permitted to enter all properties for the purposes of inspection, observation, measurement, sampling and testing in accordance with the provisions of this ordinance. The City shall have no authority to inquire into any processes including metallurgical, chemical, oil refining, ceramic, paper or other industries beyond that point having a direct bearing on the kind and source of discharge to the sewers or waterways or facilities for waste treatment.

#### b. Safety

While performing the necessary work on private properties referred to in the above paragraph, the Inspector or duly authorized employees of the City shall observe all safety rules applicable to the premises established by the company and the company shall be held harmless for injury or death to the City employees and the City shall indemnify the company against loss or damage to its property by City employees and against liability claims and demands for personal injury, or property damage asserted against the company and growing out of the gauging and sampling operation, except as such may be caused by negligence or failure of the company to maintain safe conditions.

#### c. Easements

The City shall be permitted to enter all private properties through which the City holds a duly negotiated easement for the purposes of, but not limited to, inspection, observation, measurement, sampling, repair and maintenance of any portion of the sewage works lying within said easement. All entry and subsequent work, if any, on said easement, shall be done in full accordance with the terms of the duly negotiated easement pertaining to the private property involved.

#### 2. Penalties

a. Notice of Violation Any person found to be violating any provision of this ordinance shall be served by the City with written notice stating the nature of the violation and providing a reasonable time limit for the satisfactory correction thereof. The offender shall, within the period of time stated, in writing, permanently cease all violations.

#### b. Penalties

Any person who shall continue any violation beyond the time limit specified by the City shall be guilty of a misdemeanor, and on conviction thereof shall be fined in the amount not less than \$100.00 for each violation. Each day in which any such violation shall continue shall be deemed a separate offense.

### SECTION V WASTE WATER CHARGES AND BILLING

The Waste Water Service Charge for normal domestic waste water is based upon a monthly service charge in such amount as is necessary to amortize all outstanding bond issues incurred as a result of construction and installation of the system and in an amount sufficient to cover all operating costs of the system. Such amount shall be set by the Mayor and Board of Aldermen and shall be amended from time to time as circumstances require.

The foregoing ordinance was read and considered section by section and then as a whole, whereupon Aldermen Ducre Bourgeois moved the adoption of the ordinance which said motion was seconded by Alderman Albert Grass, whereupon the Mayor called for a roll call vote, the result of which was as follows:

Those voting Yea-Aldermen Bourgeois, Grass and Campion.

Those voting Nay-None.

Whereupon the Mayor declared the ordinance adopted.

Garfield Laddner, Mayor  
City of Waveland,  
Mississippi

ATTEST:

Barbara A. Rappold  
SECRETARY

I hereby certify that the above and foregoing is a true and correct copy of an ordinance passed by the Mayor and Board of Aldermen of the City of Waveland at a special meeting held at the City Hall in Waveland on the 30th day of January, 1973.

Witness my signature this 31st day of January, 1973.

# Oklahoma Presented To Capacity Audiences

By Emily de Montluzin

Audiences totaling more than a thousand attended the three performances last weekend of St. Stanislaus High School's lively production of "Oklahoma", and at both evening performances the cast received a standing ovation at the last curtain. Presented in the Sy Rosenthal auditorium at St. Augustine's Seminary, the Rogers and Hammerstein musical invoked its old magic and proved itself as delightful in the 1970's as it was in the 1940's and all the years between.

Latest in a series of annual big-time shows presented by St. Stanislaus during the past four years, "Oklahoma" followed a memorable production of "Oliver!" "My Fair Lady", and "Mister Roberts" and was perhaps the most ambitious of all, especially in its music and choreography. It was produced by Mrs. Beverly Zimmerman and directed by Burt Barrett, who, with musical director Davis Williams and technical director Brother Joseph Donovan, formed an experienced team accustomed to working together and to directing high school performers. This year they were fortunate to add to their team Mrs. Phyllis Gillis as choreographer and Mrs. Mary Howard as pianist, both of whom contributed immeasurably to the success of the play. Mrs. Gillis, a professional dancer and dance instructor and a newcomer to this area, had in fact performed herself in "Oklahoma" in Atlanta.

Set in the Oklahoma territory just prior to its statehood, the story concerns the courtship of Laurey and Curly and the rivalry between the local farmers and cowhands. Easily the star of the show, in the role made famous by Gordon McCrae, was St. Stanislaus senior Buddy Zimmerman, who not only has an impressive voice but an easy onstage manner and an innate ability to project his engaging personality straight across the footlights.

Laurey's role was played by Tish Haas, a ninth grade student at Our Lady's Academy, who was pretty as a picture and who sang her rather intricate numbers with a poise unusual in one so young. Contrasting characterizations, acted and sung with near-professionalism and excellent sense of timing were those of pert Ado Annie, played by Carleen Murphy, and cocky Will Parker, played by Stephen Scott, both of whom deserve special commendation. So does the villain of the show, big Kim Rohr, in the demanding role of Jud Fry, a psychopathic hired hand who manages to evoke the sympathy of the audience in spite of his menacing ways. Nancy Hathaway, portraying sharp-tongued Aunt Eller, and Cody Lowe as the "peddler man" Al Hakim provided much of the comedy, as did Bert Polaski as Ado Annie's father and Susan Benvenuti as Gerlie Cummings with the unforgettable laugh.

Outstanding numbers, measured by audience reaction, must have been "The Surrey with the Fringe on the Top", "Many A New Day", "Pore Jud", "I Can't Say No", "Kansas City", and the complete cast's spirited rendition of "Oklahoma" at the beginning of the second act. The entire show demonstrated effective direction in characterization, timing, and the light touch essential to a play of this sort.

Excellent as the principal characters were, however, they in no way eclipsed the performance of the minor actors and members of the chorus, whose songs and dances provided the musical framework necessary for the plot of the play. The complete cast included Mike Drutner, Tommy Yngue, Steve Calabcia, Gisella Curry, Kelli LeBlanc, Cecelia Battalora, Tricia Dickinson, Mignon Forstall, Helen MacDowell, Larry Riley, Jim Amenta, Bill Stalley, Debbie Ginn, Lori Sallinger, Anthony Aramburo, Alton Daniels, Murry Jolivet, Brad Williams, Guy Billups, Margaret Hayden,

Michele Oustalet, Susie Tabor, and Lorraine Lachner. Members of the orchestra, whose performance was truly impressive, were Carl Schott, Dawn Harvey, Ann Marie Rosato, Ed Picard, Tim Landry, Mike Keel, John Strauss, Jim McGowan, Royal Kraft, Robert Wittmann, David Johns, Richard Smith, Cindy Smith, Susie Veglia, Clovia Lewis, David Labat, and John Brown.

The single stage setting depicted a farmyard scene, complete with porch, picket fence, smokehouse, and cornfield. Art work was supervised by Brother Timothy with Barbara Marochino, Susan Benvenuti, Kevin Collins, and Lynn Phillips working on the scenery. Special advisor was Brother Eduardo Baldicoeda; Pat Murphy set up the lighting, and the lights were handled by Jimmy Jacobs and Tommy Lupo. Barbara Marochino and Terri Murtagh were stage managers, making up was supervised by Mrs. Judy Barrett, and publicity was handled by Nancy Hathaway.

Any successful production, and especially a musical show, requires the combined efforts of many people and a great deal of time and devotion from its cast. To the producer, the director, the music director, the choreographer, the cast, the orchestra, and all the others who gave Bay St. Louis the real treat that "Oklahoma" provided, this reviewer has a question to ask: "What next? What can you do to top this one?" In the words of Will Parker, "You've gone about as far as you can go!"

# Announce Engagement

Mr. and Mrs. C. W. Jones of Bay St. Louis, announce the engagement of their daughter, Teresa Jewel, to A-1C Joe Edward McDowell, son of Mr. and Mrs. George L. McDowell, Dallas, Texas.

The marriage will be solemnized at 8 p.m. March 16, at Main Street United Methodist Church. A reception will follow in the Church Fellowship Hall.

Relatives and friends are invited through this medium.

## AUXILIARY

World War I Ladies  
Auxiliary met February 28 in  
the American Legion Home  
with Mrs. Irby Charping,  
president, presiding.

Plans were formulated for the Department convention to be held in Bay St. Louis in June.

Following a brief business session a covered dish dinner was enjoyed by the group.

## SODALITY MEETING

Sodality of Our Lady of St. Clare's Parish will have their monthly communion at the 9 a.m. Mass, Sunday, March 4. All members are asked to attend.

**CURET  
Patrol, Inc.**

**COLEMAN ASSIGNED**

U.S. Air Force Master Sergeant Robert H. Coleman, son of Mr. and Mrs. Robert H. Coleman of Rt. 3, Bay St. Louis, has arrived for duty at Forbes AFB, Kan.

Sergeant Coleman, an aircraft technician, is assigned to a unit of the Tactical Air Command which provides air support for U.S. ground forces. He previously served at Korat Royal Thai AFB, Thailand.

The sergeant is a 1953 graduate of Bay High School. His wife is the former Elaine Gellings.

**DIAMOND HEAD**  
ON BAY ST. LOUIS

Mr. and Mrs. Al Pressman have reason to be proud of their eight-year-old son, Butch Fry, who is in the third grade at Waveland Elementary. In the science fair held Feb. 24 at the school, Butch won the overall first place blue ribbon award competing with students from grades one through six. At the next school assembly meeting he will receive a gold medal for his winning project which was a soil survey and adaptable shrubs and vegetables of eight areas of Diamondhead.

Sherée Milan, Distributive Education Queen, rode in the Waveland parade Sunday, and will participate March 3 in the Bay St. Louis parade.

Mr. and Mrs. Robert Marsh were dinner hosts of Mrs. Bea Georgi.

Mr. and Mrs. W. L. Templet

were guests of Mrs. Lila Greenfield and Mrs. Gordon Gleim at the Bay-Waveland Yacht Club Carniyal Ball Friday.

Out-of-town friends of Mrs. W. L. Templet attending the Diamondhead Garden Club Style Show were Mines. A. P. MMmes. A. P.

Out-of-town friends of Mrs. W. L. Templett attending the Diamondhead Garden Club Style Show were Mmes. A. P. Musso, Mike McMurray, Covington, La., Clifton Doucet, Beulah Rolibert, Hazel Fogg, Joez Giacomina, John Kennedy, Jewel Carmichael, Slidell, La., Eunice McMillian, Gretna, La., and daughter, Mrs. Ray Maestri. They represented the Slidell Garden Club and Bayou Liberty Garden Club.

## Selective Service Still In Business

Despite the Vietnam cease-fire, business as usual is the order of the day at Selective Service local board offices, says State Director James L. Davis. The Selective Service System is still empowered to require registration of all draft-eligible males within 30 days of their eighteenth birthday. It is feared that the announcement that the draft has ended might be misinterpreted by many young men and result in failure to register. At registration, a young man's identity must be verified by either a birth certificate, driver's license, or other identification.

Colonel Davis states that it is still the duty of every registrant to keep his Selective Service card most carefully guarded by his local board. The failure of any person to have his Registration Certificate or Status Card in his personal possession shall be considered evidence of his failure to register.

A lottery will be held soon for males born in 1944. It is not known at this time if those registered will be processed for possible induction.

Even though registration will continue, a young man will not be called unless there is a national emergency, Colonel Davis said.

## Echoes

Mr. and Mrs. Ray Levell of Biloxi spent Sunday with her sister, Miss Frances Faucetta.

Mr. and Mrs. Lamar Bassett of Pascagoula visited over the weekend with her parents Mr. and Mrs. Henry Caplepon.

Mr. and Mrs. Ray Steffel and J.W. Watts Sr. attended the mid-winter Flying Scot Championship Regatta at St. Andrew's Bay Yacht Club, Panama City, Fla., over the weekend.

Judge and Mrs. Dan M. Russell Jr. and daughter Dale recently returned from a week's vacation in California and Honolulu.

Mr. and Mrs. Pedro Monti and daughters, Denise, Amy and Susan spent Sunday with his sister Miss Joy Monti in Metairie, La.

Nellus Favre who underwent surgery at Ochsner Foundation Hospital returned home Sunday and is recuperating at his Main Street home.

Mrs. Marie Monti observed her 87th birthday Tuesday, February 27. Phone calls and greetings were extended to Mrs. Monti on the occasion.

### LOCAL DELEGATES

The Bay St. Louis delegation of Jehovah's Witnesses completed their role as delegates last February 25, when the group's "Do All Things For God's Glory" assembly closed at the Bogalusa La. High School.

According to Robert Fisher, local presiding minister, the assembly attracted delegates from Southeastern Louisiana and Southern Mississippi. Peak attendance reached 1,236 last Sunday, when H. C. Hoskins, Regional Representative of the Watchtower Bible and Tract Society, delivered a special public Bible talk on "Decide Now For Divine Rule."

## KANTCHA KETCHUM

By L.S. (Doc) Elliott

The weather hasn't changed since last week. Cold in the mornings, about the 60's in mid day and cool again at night. Takes fishermen off guard and the fish don't know what to do, especially with muddy waters most everywhere. In the Pearl River area the river itself has a current continually, muddy water along the banks. Getting better however with the heads of most bayous running into the river clearing daily. Caught a few green trout during the week in log, Deer, Doe and Buck's Bayous.

According to information the barracades at Lower Black, Mills and other bayous were removed the end of last week. Water in these bayous is still bad and unfishable. Mighty good fly fishing and casting in these spots when conditions are right.

Nearer home Jourdan River and Bayou La Croix are clearing and should furnish some excellent fishing soon. Stocking these streams with some black bass would help wonderfully. They were stocked recently with bream and cat fish, no bass at all.

Most of our local sportmen go for bass fishing in a big way, by fly fishing and casting. Let's think about them a little.

Bayou Coco, Rotten Bayou and joining lakes are ideal for fresh water fishing. They are up Jourdan River.

Met Wallace Colly the other day. Wallace is owner of Colly's Lake at Clermont Harbor. He claims Bay St. Louis and Atlanta, Georgia as his home. Visits here quite often, visiting relatives and friends. No fishing this time. Was down on business. He talked about when he fished with Leonard Ladner and Alvin Ladner, local residents.

Was with sorrow we read of the death last week of Emmett Louis Sells. He was more affectionately known as Uncle Bud, 74 years old. Had been a fisherman for years. Originally from New Orleans Uncle Bud had resided in Waveland for the past 2 1/2 years.

Zeke Hunter is from Waveland. He does mostly salt water fishing. Is a T.V.

**SPORTSMAN OF THE WEEK**  
ONE OF OUR younger fishermen and hunters is Nicky Kingston son of Al Kingston. Nicky just loves to fish and knows what it is all about. Usually brings home some kind of fish. Been doing it a long time, he said.

Technician and goes after the finny tribe on every occasion.

Earl E. Ladner is from Kiln, Miss. Earl does fly fishing but enjoys mostly trolling for speckles when they are up Jourdan River. One of our best fishermen, I'll say.

Was talking to Bill Griffith, Jr., son of Bill Griffith of the Bay. He is a pilot and works out of Houma, La. Bill and his dad flies to the fishing grounds

out of Houma where reds and speckles furnish some excellent fishing. Jokingly, Bill said, "I keep the catfish off of everybody else's line." Will make that trip with you some time, Bill.

Mild days, partly cloudy skies are still forecast for this section of the state with cool nights. This kind of weather affects fishing especially for fresh water fish. Went fishing Sunday and caught only 4 bass after a day of fishing. The water in the head of some bayous was clear, but was on the cold side.

Good news for those who fish Lower Black, Mills Bayous, and other bayous the barracades have been removed. The water however is on the bad side and will be for the next week or so.

Uncle Joe Roddie who lives at Kiln, Miss., celebrated his 93rd birthday last Thursday (Washington's birthday). A group of friends dropped in and a birthday party followed. Uncle Joe entertained by playing a Mandolin. Songs of by-gone days were sung by the group.

Those present were: Mr. and Mrs. Ray Favre, Mr. and Mrs. Earl Ladner Sr., Mr. and Mrs. Forest Laviolette, Sister Mary Ellen, Pedro Fuente, Arthur Marson, Alden Mauffray, Dec Elliott and Mr. and Mrs. Camille Curet. Uncle Joe was with the Hines Lumber Co. for 36 years

when that company had one of the largest lumber mills in the State and the Kiln was a booming town.

Turkey hunting will be March 24-April 22, 1973, open season (all dates inclusive). Archery Season on Turkey Gobblers, will open on April 23, 1973 through April 30th, for hunting turkey gobblers only with longbow and arrow.

Believe it or not Joe Cook Kellar is a turkey hunter. Plans to go after them when the season opens. Joe takes behind his dad who was one of our best turkey hunters. Other old time turkey hunters included Joe Benedetto, Claude Monti, Frank Quintini, etc.

Dick Mastayer says he is going back to fishing now that the hunting seasons are over. He has a lot of friends who will do the same thing. Most Hunters are also Fishermen.

Almost forgot to mention Judge Dan Russell who is an ardent turkey hunter.

Ever try making your own popping bugs? It is a real pastime and one gets a thrill catching fish on a self made bait.

A number of local golfers were seen touring the Pass Christian Isles Golf Course over the week end. Golf is another pastime for fishermen when fishing is no good. The

course is in excellent shape. Among them out were Sheldon Seuzeneau, Russell Elliott, John Scaife, Sr., Sydney Prague, Bonde Blanchard and many others.

Still fishermen are catching some nice bass and perch with earth worms, small crayfish, live minnows and grass shrimp in local ponds and lakes. Now is the time to catch them when they are not hitting surface baits.

The annual Seafood Dinner for the whole family will be given by the St. Stanislaus Sideline Club on Friday, April 6th, 1973 in the S.S.C. Cafeteria from 5 to 8 p.m. Drinks available. Special line for take-out Orders. Make plans to attend this annual affair.
